Charisma And Compassion Cheng Yen And The Buddhist Tzu Chi Movement:

Charisma and Compassion C. Julia Huang, 2009-01-31 Focusing on the transformation of the Tzu Chi this book contributes to our understanding of the nature of charisma and the role of faith based organisations **The Anthropology of Religious Charisma** C. Lindholm, 2013-12-18 According to Max Weber charisma is opposed to bureaucratic order This collection reveals the limits of that formula The contributors show how charisma is a part of cultural frameworks while retaining its ecstatic character among American and Italian Catholics Syrian Sufis Taiwanese Buddhists Hassidic Jews and Amazonian shamans among others **The Rise of Tzu Chi** Chengpang Lee, 2025-04-01 With ten million members worldwide Tzu Chi has influence unmatched by most East Asian religious and non profit organizations The Buddhist foundation was established in Taiwan in 1966 by nun Cheng Yen and a group of laywomen As with most religious movements its success is often attributed to a charismatic leader but The Rise of Tzu Chi offers a strikingly new analysis Chengpang Lee traces Tzu Chi's apparently contradictory trajectory Although authority is centralized it is not authoritarian Each unit has significant autonomy resulting in an exceptional array of charitable initiatives the world's first crowdfunded hospital a Taiwan wide recycling system Asia's most effective bone marrow bank a new university and a global medical humanitarian team Lee convincingly demonstrates that its unique capacity to synthesize religious and lay leadership has allowed Tzu Chi to continuously integrate heterogeneous elements The Rise of Tzu Chi shows us a dynamic Asian religious movement with diversity at the root of its success **Buddhist Visions of the Good Life for All** Sallie B. King, 2021-05-30 This book highlights what Buddhism has to offer for living well here and now for individuals society as a whole all sentient beings and the planet itself From the perspectives of a variety of Buddhist thinkers the book evaluates what a good life is like what is desirable for human society and ways in which we should live in and with the natural world By examining this worldly Buddhist philosophy and movements in India Sri Lanka Bhutan the Tibetan diaspora Korea Taiwan Japan and the United States the book assesses what Buddhists offer for the building of a good society It explores the proposals and programs made by progressive and widely influential lay and monastic thinkers and activists as well as the works of movement leaders such as Thich Nhat Hanh and Dr B R Ambedkar for the social economic political and environmental systems in their various countries Demonstrating that Buddhism is not solely a path for the realization of nirvana but also a way of living well here and now this book will be of interest to researchers working on contemporary and modern Buddhism Buddhism and society Asian religion and Engaged Buddhism **Handbook of East Asian New Religious Movements** Lukas Pokorny, Franz Winter, 2018-04-24 This Handbook has won the ICAS Edited Volume Accolade 2019 Brill warmly congratulates editors Lukas Pokorny and Franz Winter and their authors with this award A vibrant cauldron of new religious developments East Asia China Taiwan Korea Japan and Vietnam presents a fascinating arena of related research for scholars across disciplines Edited by Lukas Pokorny and Franz Winter the Handbook of East Asian New Religious Movements provides the first

Religion, Hypermobility and Digital Media in Global Asia Catherine Gomes, Lily Kong, Orlando Woods, 2025-10-01 Digital media is changing the ways in which religion is practiced understood proselytised and countered Religious institutions and leaders use digital media to engage with their congregations who now are not confined to single locations and physical structures The faithful are part of online communities which allow them a space to worship and to find fellowship Migrant and mobile subjects thus are able to be connected to their faith whether home grown or emerging wherever they may be providing them with an anchor in unfamiliar physical and cultural surroundings As Asia rises mobilities associated with Asian populations have escalated The notion of Global Asia is a reflection of this increased mobility where Asia includes not only Asian countries as sites of political independence but also the transnational networks of Asian trans migrants and the diasporic settlements of Asian peoples all over the world This collection features cutting edge research by scholars across disciplines seeking to understand the role and significance of religion among transnational mobile subjects in this age of digital media and in particular as experienced in Global Asia **Doing Good Great** Willie Cheng, Sharifah Mohamed, Cheryl Tang, 2015 From migrant workers and media freedom to housing slums this book captures the gamut of social issues that plague Asia telling the stories behind thirteen committed individuals who have effected great change in their respective causes These stories are about the behemoths such as Dharma Master Cheng Yen from Taiwan and Sir Fazle Hasan Abed from Bangladesh who lead some of the world s largest nongovernmental organisations to Aki Ra from Cambodia and Sompop Jakantra from Thailand whose smaller teams have saved hundreds of lives from landmines and prostitution respectively The social heroes portrayed have pursued seemingly quotidian causes that citizens of developed countries may take for granted such as toilets in India decent housing for the poor in Hong Kong and mainly making life better for those whom society appears to have forgotten Reader Reviews The people working to address social issues are not always as well documented as the issues themselves it is important to bring an awareness of them into the mainstream media It s easy to become overwhelmed by societal injustice but these stories show that even when you can t count on your government to protect your rights individuals working in social justice can make positive change Camille Neale AWARE This book is an excellent

snapshot of 12 Asian countries and their circumstances and challenges Cheong Suk Wai The Straits Times

Cosmopolitanism, Religion and the Public Sphere Maria Rovisco, Sebastian Kim, 2014-02-05 Although emerging scholarship in the social sciences suggests that religion can be a potential catalyst of cosmopolitanism and global citizenship few attempts have been made to bring to the fore new theoretical positions and empirical analyses of how cosmopolitanism as a philosophical notion a practice and identity outlook can also shape and inform concrete religious affiliations Key questions concerning the significance of cosmopolitan ideas and practices in relation to particular religious experiences and discourses remain to be explored both theoretically and empirically This book takes as its starting point the emergence of cosmopolitanism as a major interdisciplinary field as a springboard for generating a productive dialogue among scholars working within a variety of intellectual disciplines and methodological traditions The chapter contributions offer a serious attempt to critically engage both the limitations and possibilities of cosmopolitanism as an analytical and critical tool to understand a changing religious landscape in a globalizing world namely the so called new religious diversity religious conflict and issues of migration multiculturalism and transnationalism vis vis the public exercise of religion The contributors work is situated in a range of world sites in Africa India North America Latin America and Europe This work will be of great interest to students and scholars of globalization religion and politics and the sociology of religion
