Gender and Work in Capitalist Economies Pam Odih, 2007-10-16 From the industrial revolution through to more recent advances in information

technology radical changes in working practices have accelerated rates of production to previously unimaginable levels The establishment of wage relations in the second half of the 19th Century precipitated the rise of the employment society and a movement towards synchronized work Industrialization epitomized the capitalist definition of work time In *Gender and Work in Capitalist Economies* Pamela Odih advances a politics of gender and time exploring the sociological aspects of work This book provides a dynamic intervention into Marxist analysis of time and capitalist accumulation and looks at how in contemporary regimes this translates as the universal appropriation of women s labour time Pamela Odih reasons that it is a disconcerting fact of global manufacturing that accelerated turnover gains have become increasingly dependent on the exploitation of a spatially disaggregated feminized global assembly line The book explores Industrial and post industrial times as moments in a longer term trend Manufacturing in the 24 hour economy Accelerated rates of disaggregated production *Gender and Work in Capitalist Economies* is key reading for students of gender studies sociology organizational analysis and economic history

The Wiley-Blackwell Companion to Cultural Geography Nuala C. Johnson, Richard H. Schein, Jamie Winders, 2016-10-03 Named a 2014 Choice Outstanding Academic Title Combining coverage of key themes and debates from a variety of historical and theoretical perspectives this authoritative reference volume offers the most up to date and substantive analysis of cultural geography currently available A significantly revised new edition covering a number of new topics such as biotechnology rural food media and tech borders and tourism whilst also reflecting developments in established subjects including animal geographies Edited and written by the leading authorities in this fast developing discipline and features a host of new contributors to the second edition Traces the historical evolution of cultural geography through to the very latest research Provides an international perspective reflecting the advancing academic traditions of non Western institutions especially in Asia Features a thematic structure with sections exploring topics such as identities nature and culture and flows and mobility

Women and False Choice: the Truth About Sexism Muna Jawhary (PhD), 2014-10-21 This book invites us to abandon our gender identity and look deeper into who we truly are Cultural ideals that see women and men as fundamentally different manifest into a physical reality of sex differentiated behaviour be it in cognitive abilities psychological traits or even dispositions We know from epigenetic studies that there is no separation between mind and environment our perceptions of environmental signals filtered through cultural beliefs translate into a corresponding behaviour in order to maintain harmony between mind body and environment Social cultures the world over still see women as suited for care and service and men as suited for work outside the home As women make life career choices they are constrained by cultural ideas images and symbols that create the nurturance imperative in their psyche Women mistake this learnt nurturing behaviour of putting others interests before theirs for natural instinct and make choices that are not in line with their authentic self Women in other words unknowingly make false choices This is only half the story of sexism in our societies The other and more toxic half is that in order to fulfill the gender agenda of women are care givers and men are

providers girls are brought up to be feminine only and boys are brought up to be masculine only Inevitably any aspects of the self that are thought to belong to the opposite sex are repressed which gives us a sense of lack and feelings of inadequacy and results in a disconnection from the heart and alienation from the true self The book also shows how our sexist thoughts manifest in a sex biased reality in the workplace Neuroplasticity and epigenetic laws are used to suggest ways of radically changing the work environment to one that is equally supportive of womens and mens success The new work environment and work practices can profoundly change how businesses operate in the world allowing them to become more adept at generating profit in todays overly competitive globalized markets *Doing Cultural Geography* Pamela

Shurmer-Smith,2002-03-28 *Doing Cultural Geography* is an introduction to cultural geography that integrates theoretical discussion with applied examples The emphasis throughout is on doing Recognizing that many undergraduates have difficulty with both theory and methods courses the text demystifies the theory informing cultural geography and encourages students to engage directly with theory in practice It emphasizes what can be done with humanist Marxist poststructuralist feminist and postcolonial theory demonstrating that this is the best way to prompt students to engage with the otherwise daunting theoretical literature *The New Blackwell Companion to The City* Gary Bridge,Sophie Watson,2011-02-23 This book

considers the state of the city and contemporary urbanisation from a range of intellectual and international perspectives The most interdisciplinary collection of its kind Provides a contemporary update on urban thinking that builds on well established debates in the field Uses the city to explore economic social cultural environmental and political issues more broadly Includes contributions from non Western perspectives and cities **Cities and Gender** Helen Jarvis,Jonathan Cloke,Paula

Kantor,2009-06-02 Men and women experience the city differently in relation to housing assets use of transport relative mobility spheres of employment and a host of domestic and caring responsibilities An analysis of urban and gender studies as co constitutive subjects is long overdue *Cities and Gender* is a systematic treatment of urban and gender studies combined It presents both a feminist critique of mainstream urban policy and planning and a gendered reorientation of key urban social environmental and city regional debates It looks behind the headlines on issues of transport housing uneven development regeneration and social exclusion for instance to account for the hidden infrastructure of everyday life The three main sections on Approaching the City Gender and Built Environment and finally Representation and Regulation explore not only the changing environments working practices and household structures evident in European and North American cities today but also those of the global south International case studies alert the reader to stark contrasts in gendered life chances differences between north and south as well as inequalities and diversity within these regions while at the same time highlighting interdependencies which globally thread through the lives of women and men as the result of uneven development This book introduces the reader to previously neglected dimensions of gendered critical urban analysis It sheds light through competing theories and alternative explanations on recent transformations of gender roles state and personal

politics and power relations across intersecting spheres of home work the family urban settlements and civil society It takes a household perspective alongside close scrutiny of social networks gender contracts welfare regimes and local cultural milieu In addition to providing the student with a solid conceptual grounding across broad structures of production consumption and social reproduction the argument cultivates an interdisciplinary awareness of and dialogue between the everyday issues of urban dwellers in affluent and developing world cities The format of the book means that included with each chapter are key definitions boxed concepts and case study evidence along with specifically tailored learning activities and further reading This is both a timely and trenchant discussion that has pertinence for students scholars and researchers
