field and hence influenced China's reforms in the following 10 years Shunde case could allow us a better peep at the factors that contribute to the sustenance of reform The analyses in this book find that sustenance of reform reflects ironically the logics of both path dependence and path creation The past reform trajectories have created a favorable background for further reform to evolve and a receptive ground in which exogenous forces interacted with the local reform minded actors to create the new reform innovations The combination of path dependence and path creation kept local reform afloat *Coal and Coal Trade Journal*, 1917 *The Examiner*, 1840 Congressional Record United States.
