Capitalism At Risk Rethinking The Role Of Business:

Capitalism at Risk Joseph L. Bower, Herman B. Leonard, Lynn Sharp Paine, 2011 Identifies ten potential dangers to the global market system providing examples of companies that are thriving and describing how a businesses must develop corporate strategies that are innovative and strengthen institutions at community national and international levels [Learn to lead yourself, your people and your organization for great results](#) ,2023-12-20 Putting people first has always been the basis of our success We believe that if we take care of our employees they will take care of our customers and the business will take care of itself Even after the 9 11 terrorist attacks in New York where we went from an occupancy rate of 75 to 5% overnight where our hotels were empty of guests but full of staff putting people first was the our priority Instead of suffering massive layoffs we implemented education programs maintained health benefits and did everything we could to get through the crisis with minimal negative impact on our people In a business like ours and I believe in any other sector we simply cannot be successful unless people are truly committed and happy in their work It is our commitment to create an environment where the unique contributions of our people are valued I believe the fact that Marriott is consistently considered an employer of choice is the result of these efforts Promoting a people first culture starts with leadership Leaders must model the way They must act interact and engage with the people they lead in a way that makes people feel seen heard and valued In The Mind of the Leader Rasmus Hougaard and Jacqueline Carter provide a clear path to creating people first organizations It requires leaders to be human first to be mindful selfless and compassionate and in doing so develop the qualities that enable engagement fulfillment and meaning which leads to greater business success If we as leaders are attentive we will know better what really matters to our people We are more present attentive and curious It s not always easy but I know the difference between being present with my people and when I m not I only have an impact when I am If we as leaders are selfless taking into account the bigger picture rather than our own selfish needs we will model cultures of growth and learning Bill Marriott our executive chairman even now in his eighties always has his ear open He is always seeking the perspective of others rather than blindly following his own beliefs and ideas If we as leaders are compassionate our people will know we are protected As this book clearly describes compassion is not soft and sentimental It is concrete and practical It s about doing the right thing like putting a doctor on staff during the Depression Again if we truly care about our employees they will truly care for our customers and the business will truly care for itself In many ways the principles in this book run counter to the number of businesses run It inspires me and provides insights to further evolve our culture and put people first And I believe that all leaders and other organizations will benefit greatly from its messages *5 Years of Must Reads from HBR: 2022 Edition (5 Books)* Harvard Business Review, Michael E. The Mind of the Leader Rasmus Hougaard, Jacqueline Carter, 2018-03-13 Join the global movement that's making corporations more people-centric to achieve great results The world is facing a global leadership crisis Seventy-seven percent of leaders think they do a good job of engaging their people yet 88 percent of employees say their leaders don't engage enough There is also a high level of suffering in the workplace 35 percent of employees would forgo a pay raise to see their leaders fired This is an enormous waste of human talent despite the fact that 46 billion is spent each year on leadership development Based on extensive research including assessments of more than 35 000 leaders and interviews with 250 C-level executives The Mind of the Leader concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning purpose connection and genuine happiness in their work But more than a description of the problem The Mind of the Leader offers a radical yet practical solution To solve the leadership crisis organizations need to put people at the center of their strategy They need to develop managers and executives who lead with three core mental qualities mindfulness selflessness and compassion Using real-world inspirational examples from Marriott Accenture McKinsey Company LinkedIn and many more The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down It represents a radical redefinition of what it takes to be an effective leader and a practical hard-nosed solution to every organization's engagement and execution problems

[The Oxford Handbook of State Capitalism and the Firm](#) Mike Wright, Geoffrey T. Wood, Alvaro Cuervo-Cazurra, Pei Sun, Ilya Okhmatovskiy, Anna Grosman, 2022-06-30 There has been a major revival of interest in State Capitalism what it is where it is found and why it is seemingly becoming more ubiquitous As a concept it has evolved from radical critiques of the Soviet Union to being deployed by neo-liberals to describe market reforms deemed imperfect to settle into a middle ground as a pragmatic way to describe the state assuming a role as an active economic agent in addition to its regulatory social and security functions The latter is the central focus of this book although due attention is accorded to the origins of state

capitalism and how it has changed over the years as well as contemporary ways in which state capitalism may be theorized. This economic agency may assume direct forms for example via state owned enterprises. However it may also be indirect for example actively serving private interests through promoting insider firms who may occupy monopolistic market positions and perform outsourced state functions. In turn this leads to raising salient governance questions. The latter may encompass agency tensions between public ownership and political or even private interest control. It may also include issues of transparency and monitoring. Although state capitalism has often been depicted as the preserve of states in the global south be they developmental or predatory many forms of state capitalism are visible in mature economies be they liberal or coordinated and this is not always associated with superior governance arrangements. Indeed this is an area where clear and easy divisions between the developing or emerging world and the developed or mature world may increasingly be breaking down. This volume brings together the accounts of leading experts from around the world. It is explicitly multi disciplinary and both consolidates the existing knowledge base and provides new novel and counter intuitive insights.
