Aiming Big with Small Cars Rajnish Tiwari, Cornelius Herstatt, 2013-10-28 This book focuses on the small car segment of India's automotive industry to explain the emergence of lead markets. The authors contend that the current understanding of lead markets does not sufficiently explain the business practices that are born out of the intensified globalization of innovation. Lead markets are considered crucial for the global diffusion of new products and this book investigates whether sustainable lead markets can also emerge in developing economies and if so under which conditions. The authors question the conventional wisdom and propose updates and extensions to the lead market theory to better reflect the changing ground realities on ground.

The Economist, 2008 **Nanovation** Kevin Freiberg, Jackie Freiberg, Dain Dunston, 2012-07-23 The Nano car disrupted an entire industry and changed the game in India forever. But this inspiring book is more than the story of one ingenious invention. Nanovation explains how revolutionary business thinking and product design can have profound effects on companies, industries and the world. Discover the thought processes that bred innovation, the leadership that overcame adversity, the risks that were necessary to avoid failure and how all of these efforts resulted in success beyond customers' wildest expectations. This book will inspire you to contest management dogma, taken-for-granted assumptions and updated systems, asking instead the tough questions of What if and Why not. The process may even motivate you to overcome the toughest roadblocks in your career, the limitations of your business and the biggest challenges facing your industry. In India, entire families too poor to afford a car crowd onto a single motor scooter every day to brave the tangled traffic of the streets. One evening Tata Motors' then venerable chairman Ratan Tata witnessed something on those rain-soaked streets that horrified him: an overloaded scooter lost traction in a busy intersection and sent several members of a family tumbling across the pavement. In that moment, the dream of Nanovation took root and Ratan Tata perused it undeterred. When budget constraints, design restrictions, the rising costs of materials and political agitation threatened to derail the project, Team Nano

pressed on This is the story of how they overcame insurmountable odds to create one of the greatest innovations in the auto industry Do you have the eyes the ears and the hands to be a Nanovator Endorsed by CEOs of high profile worldwide companies spanning many different industries Nanovation encourages big ideas and even bigger action plans so that you too can make your mark
