

Cardiovascular System

Objectives:

Following completion of this section, the student should be able to:

- Describe the anatomy and physiology for the cardiovascular system.
- Recognize the appropriate diagnostic test and the nursing implications for both pre- and post procedure.
- Define the various disorders associated with the cardiovascular system.

Anatomy and Physiology

What is most important to remember about the cardiovascular system, is that it is system of one pump and many tubes. There is an immense complexity to this system, as the novice nurse, a basic understanding of this system is required to provide safe and effective care.
