Early Christian Ritual Life Richard E. DeMaris, Jason T. Lamoreaux, Steven C. Muir, 2017-11-22 Scholars across many fields have come to realize that ritual is an integral element of human life and a vital aspect of all human societies Yet this realization has been slow to develop among scholars of early Christianity *Early Christian Ritual Life* attempts to counteract the undervaluing of ritual by placing it at the forefront of early Christian life Rather than treating ritual in isolation or in a fragmentary way this book examines early Christian ritual life as a whole The authors explore an array of Christian ritual activity employing theory critically and explicitly to make sense of various ritual behaviors and their interconnections Written by leading experts in their fields this collection is divided into three parts Interacting with the Divine Group Interactions Contesting and Creating Ritual Protocols This book is ideal for religious studies students seeking an introduction to the dynamic research areas of ritual studies and early Christian practice **The Stories Congregations Tell** Joel

Thiessen, Arch Chee Keen Wong, Mark D. Chapman, 2024-11-26 Congregations are story telling communities The stories they

tell which link a community's past, present and future can play an important role in whether a congregation flourishes or not. The *Stories Congregations Tell* features detailed case study research from seven dynamic Canadian congregations across theological traditions and geographical regions. Readers will encounter narratives that congregations tell themselves through a myriad of congregational and social transitions, accounts that shape how congregations interpret, frame, approach and ultimately flourish in ministry. On the surface, congregational descriptions appear specific to local contexts. Yet cultural analysis reveals several commonalities across distinct congregational cultures that appear resilient in the face of challenge and change. These factors include visionary leadership, clear congregational identity rooted in spiritual formation, hospitable community among members and intentional systems and structures oriented toward a congregation's mission. This book offers social scientific analysis and theological reflection on the stories congregations tell and the function those stories play for a congregation's culture, along with practical and hopeful applications to arise from this research. From Page to Proclamation Clare Schwantes, 2024-11-19 This pioneering work invites readers to embark on a transformative journey through the heart of liturgical worship and scriptural proclamation. It introduces a new tier to biblical hermeneutics, exploring the ways in which the liturgical event and the ecclesial community color the interpretation of Scripture. Weaving together insights from Gadamer's philosophical hermeneutics with the rich tapestry of Catholic liturgy, the author proposes that the meaning of a proclaimed Scripture passage emerges not from an analysis of the text itself but in the vibrant interplay of multiple horizons. Bible Lectionary homilist and worshiper. Through a lens of play and festival, the intricate relationship between tradition and contemporary worship is explored, showcasing how the sensory richness of the Catholic liturgy shapes the interpretation of Scripture. It challenges readers to view the Lectionary as a living text intimately connected to the worshipping assembly and the modern world. This thought-provoking work offers both theoretical insights and practical implications for scholars, clergy and worshipers alike. It inspires a fresh perspective that resonates with the contemporary Catholic experience, guiding worshipers toward a profound engagement with Scripture in the dynamic event of liturgical celebration. *The Oxford Handbook of Calvin and Calvinism* Bruce Gordon, Carl R. Trueman, 2021-07-28 The Oxford Handbook of Calvin and Calvinism offers a comprehensive assessment of John Calvin and the tradition of Calvinism as it evolved from the sixteenth century to today. Featuring contributions from scholars who present the latest research on a pluriform religious movement that became a global faith, the volume focuses on key aspects of Calvin's thought and its diverse reception in Europe, the transatlantic world, Africa, South America and Asia. Calvin's theology was from the beginning open to a wide range of interpretations and was never a static body of ideas and practices. Over the course of his life, his thought evolved and deepened while retaining unresolved tensions and questions that created a legacy that was constantly evolving in different cultural contexts. Calvinism itself is an elusive term bringing together Christian communities that claim a shared heritage but often possess radically distinct characters. The Handbook reveals fascinating patterns of continuity and

change to demonstrate how the movement claimed the name of the Genevan reformer but was moulded by an extraordinary range of religious intellectual and historical influences from the Enlightenment and Darwinism to indigenous African beliefs and postmodernism In its global contexts Calvinism has been continuously reimagined and reinterpreted This collection throws new light on the highly dynamic and fluid nature of a deeply influential form of Christianity

Counting Religion in Britain, 1970-2020 Clive D. Field, 2021-12-09 Counting Religion in Britain 1970 2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization
