Certified Internal Auditor CIA designation is the only internationally accepted designation for internal auditors and remains the standard by which individuals demonstrate their competency and professionalism in the internal auditing field. The CIA exams test a candidate's knowledge of current internal auditing practices and understanding of internal audit issues, risks, and remedies. The Certification in Control Self Assessment (CCSA) is a specialty certification program designed primarily for practitioners of control self assessment (CSA). The Certified Government Auditing Professional (CGAP) is a specialty certification designed for and by public sector internal auditing practitioners. The CIA certification has 4 parts. The CCSA exam and the CGAP exam are single part specialty exams. The CIA exam parts are: PART 1 THE INTERNAL AUDIT ACTIVITY'S ROLE, PART 2 CONDUCTING THE INTERNAL AUDIT ENGAGEMENT, PART 3 BUSINESS ANALYSIS AND INFORMATION TECHNOLOGY, PART 4 BUSINESS MANAGEMENT SKILLS. Do note that many of the CIA, CCSA, CGAP knowledge areas are overlapped even though they are differently labeled. My suggestion is that you go through ALL TOPICS before taking any of the individual exam modules. Do NOT study on a per module basis. Instead, treat all of them as a whole. This will guarantee that you don't get tripped up when similar questions show up on different exam parts. And know the IPPF inside and out. Many correct answers come out from the IPPF. You want to know that starting from mid 2013, the CIA exam structure will be changed to a new 3 part format. HOWEVER, content wise, the new structure does not really have anything new. In fact, as said by IIA, the final change consists of a realignment of the exam content outline and question count for each part.

Certified Control Self-Assessment CCSA Exam
FOCUS Essential Study References 2013 Exam
REVIEW, 2013-05-25
Control Self Assessment (CSA) is an alternative to the typical internal audit. Instead of conducting audits via tests and observations, the auditor facilitates a process whereby the managers and employees of a business function perform an examination of the function's own business processes. The Certification in Control Self Assessment (CCSA) is a specialty certification program designed primarily for practitioners of control self assessment. The one part CCSA exam has 125 multiple choice questions covering: 1. CSA Fundamentals, 2. CSA Program Integration, 3. Elements of the CSA Process, 4. Business Objectives, Organizational Performance, 5. Risk Identification and Assessment, 6. Control Theory and Application. You may choose to take this specialty exam as credit for Part IV of the CIA exam. The CCSA exam is comprehensive. One has to go through a lot of readings for learning the various exam topics.
