Prison Vocational Education and Policy in the United States Andrew J Dick,William Rich,Tony Waters,2016-08-05 This book explores California s prison system in the context of vocational education reform For prisons in the early twenty first century ideologies of evidence based management meant that reform efforts to change the purpose of prisons from punishment to rehabilitation through vocational education required evidence to justify policy prescriptions Yet who determines what constitutes evidence In political environments solutions are typically pre conceived which means that the nature of the evidence collected is also preconceived As a result key assumptions about outcomes are often wished away to show improvement and be accountable Through a detailed analysis interspersed with stories from the authors experiences behind the wall among California s prison population the authors challenge the nature of evidence based research as used in the prison environment In the process they describe the thorny problems facing reformers

Committee on Budget and Fiscal Review,2008 *Toward Justice* Kristi Holsinger,Lori Sexton,2017-03-16 Designed as a text for Criminal Justice and Criminology capstone courses *Toward Justice* encourages students to engage critically with conceptions of justice that go beyond the criminal justice system in order to cultivate a more thorough understanding of the system as it operates on the ground in an imperfect world where people aren t always rational actors where individual cases are linked to larger social problems and where justice can sometimes slip through the cracks Through a combined focus on content and professional development *Toward Justice* helps students translate what they have learned in the classroom into active strategies for justice in their professional lives preparing them for careers that will not simply maintain the status quo and stability that exists within our justice system but rather challenge the system to achieve justice **Routledge**

Handbook on Capital Punishment Robert M. Bohm,Gavin Lee,2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences especially in criminal justice and criminology Over the last decade or so the United States has experienced a significant decline in the number of death sentences and executions Since 2007 eight states have abolished capital punishment bringing the total number of states without the death penalty to 19 plus the District of Columbia and more are likely to follow suit in the near future Nebraska reinstated its death penalty in 2016 Worldwide 70 percent of countries have abolished capital punishment in law or in practice The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries Within this context a fresh look at capital punishment in the United States and worldwide is warranted The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter and chapters present state of the art analyses of a range of aspects of capital punishment grouped into five sections 1 Capital Punishment History Opinion and Culture 2 Capital Punishment Rationales and Religious Views 3 Capital Punishment and Constitutional Issues 4 The Death Penalty s Administration and 5 The Death Penalty s Consequences This is a key collection for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in prison service or in related agencies *Principles and Practice of Lacrimal Surgery* Mohammad Javed Ali,2018-02-08 This second edition of the highly successful and comprehensive text on lacrimal disorders presents the latest developments in this rapidly evolving field The new edition includes six new chapters additional photographs and all chapters now have a separate section on recent advances Written by experts in the field of dacryology this book is a practical guide to evaluating and managing patients with lacrimal disorders It methodically discusses basic anatomy and underlying pathology

patient evaluation and all surgical procedures currently used to manage such disorders. It thoroughly yet concisely reviews surgical modalities including the endoscopic and micro endoscopic approaches and provides ample illustrations for a better understanding. Since familiarity with a surgical technique is incomplete without the knowledge of risk factors and red flags, the text highlights ways of dealing with surgical complications and failure. Further, it discusses in detail controversial topics and treatment dilemmas and reviews the current consensus among the experts. This is an up-to-date reference work for dacrylogists, oculoplastic surgeons, general ophthalmologists, as well as fellows in training.

Working with Vulnerable Children, Young People and Families Graham Brotherton, Mark Cronin, 2013-07-24. The potential for early intervention to prevent social problems later in life has become the focus of much debate in recent years and finds itself at the centre of contemporary social policy. The meaning of vulnerability, one of the key concepts in this drive, is examined in this book, as well as the relationship between vulnerability and the individual, communities and society. This book introduces students to a broad debate around what constitutes vulnerability and related concepts such as risk and resilience and examines how vulnerability has been conceptualised by policy makers with a clear focus on early intervention. Adopting a case study approach, it opens with chapters examining the concept of vulnerability from sociological, psychological and social policy perspectives, before looking at examples around disability, homelessness, leaving care, victims of violence, sexual abuse, prison, the Internet and drug use. Supporting students in engaging with and evaluating the conceptualisation and application of vulnerability in professional practice, this book is suitable for anyone either preparing for or currently working within the children's workforce, from social work and health care to education and youth work.

Youth Gangs in International Perspective Finn-Aage Esbensen, Cheryl L. Maxson, 2011-12-13. As a steady source of juvenile delinquents and an incubator for future adult offenders, the youth gang has long been a focus of attention from their origins and prevalence to intervention and prevention strategies. But while delinquent youth form gangs worldwide, youth gang research has generally focused on the U.S. *Youth Gangs in International Perspective* provides a needed corrective by offering significant studies from across Europe as well as Trinidad, Tobago and Israel. The book spans the diversity of the field in the cultural and scholarly traditions represented and methods used, analyzing not only the social processes under which gangs operate and cohere but also the evolution of the research base, starting with the Eurogang Program's definition of the term youth gang. Cross-national and gender issues are discussed, as are measurement concerns and the possibility that the American conception of the youth gang is impeding European understanding of these groups. Among the topics covered: Gang dynamics through the lens of social identity theory; Defining gangs in youth correctional settings; Gang gender composition and youth delinquency; From Stockholm: a holistic approach to gang intervention; Gang membership as a turning point in the life course; The impact of globalization, immigration and social process on neo-Nazi youth gangs; Filling a critical gap in the literature. *Youth Gangs in International Perspective* will find a wide audience among criminologists, policymakers specializing in youth crime and

researchers and graduate students in criminology political science and youth studies
