Contracts Cases And Comment 10th Edition:

Contracts, Cases and Materials E. Farnsworth, Carol Sanger, Neil Cohen, Richard Brooks, Larry Garvin, 2023-08-11 This classic casebook now in its 10th Edition offers first year students a solid and inviting introduction to contract law recognizing both the English and American common law traditions and bringing them into our age of statutes most particularly the Uniform Commercial Code Like earlier editions the 10th Edition features carefully selected cases well tailored notes and problems and authoritative textual discussions of major developments in current contract law These include the meaning of assent and agreement with particular focus on the online environment attention to comparative and international approaches and accessible discussion of theoretical underpinnings of contract doctrine the importance of which remain a mainstay of this new edition The casebook is ecumenical in its outlook presenting a well balanced approach that is usable by professors with a wide range of theoretical outlooks and pedagogical styles Cases are situated within a variety of disciplines history economics philosophy and ethics and present the law in a variety of typical settings commercial familial employment consumer real estate and so on The 10th Edition will feel familiar yet fresh to current users and both exciting and comfortable to newcomers Among the 10th Edition s updates and revisions Extensive treatment of COVID 19 and contract law including such areas as formation unjust enrichment unconscionability material adverse change clauses conditions specific performance impracticability frustration risk apportionment and third party beneficiaries Updated and enhanced materials on electronic contracting Coverage of such recent developments as the 2022 amendments to the Uniform Commercial Code and the Restatement of Consumer Contracts New cases and comments suitable for discussions of how such topics as race and class affect and are affected by contract law Added problems in the casebook on applications of contract doctrine in line with upcoming changes to the Multistate Bar Examination

The Choice Theory of Contracts Hanoch Dagan, Michael Heller, 2017-04-17 This concise landmark in law and jurisprudence offers the first coherent liberal account of contract law The Choice Theory of Contracts answers the field s most pressing questions what is the freedom in freedom of contract What core values animate contract law and how do those values interrelate How must the state act when it shapes contract law Hanoch Dagan and Michael Heller two of the world s leading private law theorists show exactly why and how freedom matters to contract law They start with the most appealing tenets of modern liberalism and end with their implications for contract law This readable engaging book gives contract scholars teachers and students a powerful normative vocabulary for understanding canonical cases refining key doctrines and solving long standing puzzles in the law

Contracts John Philip Dawson, William Burnett Harvey, Stanley D. Henderson, Douglas G. Baird, 2013 With the appearance of the Tenth Edition this book enters its sixth decade Throughout its long history this casebook has relied on classic cases to capture the fundamental principles of contract law and this edition reinforces that tradition This new edition preserves and builds upon the book s distinctive character especially its use of canonical cases its sensitivity to the history

and evolution of doctrine and its close attention to the legal consequences of breach The newly added cases show how the basic principles of contract law continue to apply across a wide range of transactions As before this edition eschews any distinctive take on the law of contracts and thus allows each teacher using the book a broad range of choice on what to bring in to channel or expand classroom discussion The most visible alteration in this edition is an expanded treatment of the important problem of contract interpretation A significant amount of new material has been added but the length of the book remains about the same This edition both covers recent developments and maintains a manageable length

Reimagining Contract Law Pedagogy Warren Swain, David Campbell, 2019-01-14 Reimagining Contract Law Pedagogy examines why existing contract teaching pedagogy has remained in place for so long and argues for an overhaul of the way it is taught With contributions from a range of jurisdictions and types of university it provides a survey of contract law courses across the common law world reviewing current practice and expressing concern that the emphasis the current approach places on some features of contract doctrine fails to reflect reality The book engages with the major criticism of the standard contract course which is that it is too narrow and rarely engages with ordinary life or at least ordinary contracts and argues that students are left without vital knowledge This collection is designed to be a platform for sharing innovative teaching experiences with the aim of building a new approach that addresses such issues This book will have international appeal and will be of interest to academics researchers and postgraduates in the fields of law and education It will also appeal to teachers of contract law as well as governmental and legal profession policymakers

Aspiration and Reality in Legal Education David Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education Aspiration and Reality in Legal Education reveals a widespread desire among law teachers to integrate both theory and practice into the education

of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform
