Dalla Parte Delle Bambine Dalla Parte Delle Bambine:

Dalla parte delle bambine Elena Gianini Belotti, 2023-05-16T00:00:00+02:00 Se ogni figlio fosse visto come individuo la questione del sesso perderebbe automaticamente importanza Nel 1973 sugli scaffali delle librerie arriva un saggio agile e vivace destinato a scuotere alle fondamenta la radicata convinzione che esistano attitudini innate diverse per maschi e femmine convinzione tutta a sfavore del sesso femminile Da quella prima uscita che segnò un'epoca diverse generazioni di bambine sono nate e cresciute ma la loro situazione non davvero cambiata rileggere Dalla parte delle bambine oggi ci aiuta a riconoscere come la cultura alla quale apparteniamo si serva di ogni mezzo per ottenere dai due sessi il comportamento più adeguato ai valori che le preme conservare e trasmettere primo fra tutti il mito della naturale superiorità del maschio Nell'opporsi a questa tesi Gianini Belotti ci esorta a ragionare non in termini di maschile e femminile ma in termini di qualità umane L'operazione da compiere dunque non quella di tentare di formare le bambine a immagine e somiglianza dei maschi ma di restituire a ogni individuo che nasce la possibilità di svilupparsi nel modo che gli è più congeniale indipendentemente dal sesso cui appartiene

Afterlives Camilla Storskog, 2023-10-31 In Afterlives the literary scholar Camilla Storskog investigates how classics with Scandinavian origin have been reinterpreted as comics She sets out how literary works plays and films have crossed and recrossed the boundaries of language and media speaking to new times and new contexts Comic art adaptations have long been neglected by academics so in this book the author considers them as unique visual media with their own aesthetic technical and narrative qualities

Women in Formal and Informal Education, 2023-05-01 Understanding the processes related to gender construction requires a multi and interdisciplinary approach Complexity emerges as a category of investigation and an end to be pursued giving space to a plurality of voices interpretations and points of view With such intellectual curiosity the volume's authors questioned the inclusion and exclusion of these multiple voices in education How has teaching on gender made room for this complexity What views were included Which ones were overlooked What have educational models for children been privileged in the imagination Which histories and stories have accompanied them in acquiring an awareness linked to gender Through such important questions and many more the volume highlights the gender changes that took place from mid eighteenth century to today in various contexts relating to formal and informal education through an international comparative perspective The multiplicity of approaches methodologies and perspectives allows us to read and analyze these changes in a composite way underlining little known aspects of gender studies in the historical educational field
