Final Study Guide

Be able to answer the following questions (and more!):

These questions are here to help you practice some potential problems. However, there are a variety of topics we have covered that is not covered in this study guide. Please make sure to also review slides, homework, labs, and projects! Good luck! ❤️

A. Definitions

1. What is the difference between passing by value and passing by reference to a function?

Passing by value creates a copy of it and anything you do is local (does not affect original).

Passing by reference will pass the address to the function. Anything you change will reflect in the original value as well.

2. How does a function return a dynamic array?

returns a pointer to the address of the first item in the array

3. Explain the difference between the current size and the capacity of an array.

size is the number of elements
capacity is how many elements the array can hold before needing to resize
