From 2000 to 2012 the number of Internet users rose from less than 0.4 billion to 2.4 billion. Scholarly evidence based Internet research is of critical importance. The field of Internet research explores the Internet as a social, political and educational phenomenon providing theoretical and practical contributions to understanding and informing practice, policy and further research. This new collection is a unique and welcome work. The editors have compiled a diverse range of new scholarly peer reviewed research spanning the fields of education, arts, the social sciences and technology. The authors provide academic perspectives both theoretical and practical on the Internet and citizenship, education, employment, gender, identity, friendship, language, poetry, literature and more. The collection comprises a rich resource for researchers and practitioners alike.
