Key Concepts FOR PERIOD 7:

Main Idea: An increasingly pluralistic United States faced profound domestic and global challenges, debated the proper degree of government activism, and sought to define its international role.

Key Concept 7.1: Governmental, political, and social organizations struggled to address the effects of large-scale industrialization, economic uncertainty, and related social changes such as urbanization and mass migration.

Key Concept 7.2: A revolution in communications and transportation technology helped to create a new mass culture and spread "modern" values and ideas, even as cultural conflicts between groups increased under the pressure of migration, world wars, and economic distress.

Key Concept 7.3: Global conflicts over resources, territories, and ideologies renewed debates over the nation's values and its role in the world, while simultaneously propelling the United States into a dominant international military, political, cultural, and economic position.

This Guide has a slightly different format from the guides you completed last semester, FYI!

AMSCO begins on page 408

Some questions may require prior knowledge
