Cultural Politics and the Transatlantic Divide over GMOs H. Stephan, 2014-12-15 Alongside other factors cultural values and identities help to explain different regulatory frameworks for genetically modified organisms This book uses insights from environmental history and sociology to illuminate the cultural politics of regulation in the US and the EU with particular attention to public opinion and anti GMO activism **Cultural Politics and the Transatlantic Divide over GMOs** H.

Stephan, 2015-01-01 Alongside other factors cultural values and identities help to explain different regulatory frameworks for genetically modified organisms This book uses insights from environmental history and sociology to illuminate the cultural politics of regulation in the US and the EU with particular attention to public opinion and anti GMO activism *Low Carbon Politics* David Toke, 2018-03-26 *Low Carbon Politics* focuses on how policies and institutions have influenced the deployment of renewable energy and nuclear power in the electricity sector Cultural theory is used to analyse this Egalitarian pressures have had a profound influence on technological outcomes not merely in securing the deployment of renewable energy but also in increasing the costs of nuclear power Whereas in the 1970s it might have been expected that individualist market based pressures allied to dominant hierarchies would deliver nuclear power as the main response to problems associated with fossil fuels a surprising combination has emerged Egalitarian and individualist pressures are together leading to increasing levels of deployment of renewable energy This work finds that electricity monopolies tend to favour nuclear power whereas competitive arrangements are more likely to lead to more renewable energy being deployed It covers developments in a number of countries including USA UK China South Africa and also Germany and Denmark This book will be of great relevance to students academics and policymakers with an interest in energy policy low carbon politics and climate change

Transatlantic Relations Donald Abelson, Stephen Brooks, 2022-03-30 This book explains how and why the transatlantic relationship has remained resilient despite persistent differences in the preferences approaches and policies of key member states It covers topics ranging from the history of transatlantic relations North Atlantic Treaty Organization and security issues trade human rights and the cultural sinews of the relationship to the impacts of COVID 19 climate change think tanks the rise of populism public opinion and the triangular relationship between the United States US Europe and China The book also conceptualizes resilience as a quality arising from myriad forms of interdependence This interdependence helps shed light on the Atlantic partnership s capacity to withstand serious disagreements such as those that occurred during the Reagan George W Bush and Trump presidencies With a principal focus on the US and Europe the contributors to the volume also employ Canadian case studies to provide a unique and useful corrective This book will interest all intermediate and senior undergraduate as well as graduate courses on relations between the US and Europe American foreign policy and European Union foreign policy A specialist readership that includes academic and think tank researchers policy practitioners and opinion leaders will also benefit from this timely volume **GMOs Decoded** Sheldon Krinsky, 2019-03-12 The debate

over genetically modified organisms health and safety concerns environmental impact and scientific opinions Since they were introduced to the market in the late 1990s GMOs genetically modified organisms including genetically modified crops have been subject to a barrage of criticism Agriculture has welcomed this new technology but public opposition has been loud and scientific opinion mixed In *GMOs Decoded* Sheldon Krinsky examines the controversies over GMOs health and safety concerns environmental issues the implications for world hunger and the scientific consensus or lack of one He explores the viewpoints of a range of GMO skeptics from public advocacy groups and nongovernmental organizations to scientists with differing views on risk and environmental impact Krinsky explains the differences between traditional plant breeding and molecular breeding through genetic engineering GE describes early GMO products including the infamous Flavr Savr tomato and discusses herbicide disease and insect resistant GE plants He considers the different American and European approaches to risk assessment dueling scientific interpretations of plant genetics and the controversy over labeling GMO products He analyzes a key 2016 report from the National Academies of Sciences on GMO health effects and considers the controversy over biofortified rice Golden Rice which some saw as a humanitarian project and others as an exercise in public relations Do GMO crops hold promise or peril By offering an accessible review of the risks and benefits of GMO crops and a guide to the controversies over them Krinsky helps readers judge for themselves
