Cuba In The American Imagination Metaphor And The Imperial Ethos:

Cuba in the American Imagination Louis A. Pérez, 2008 One of the foremost historians of Cuba analyzes the metaphorical and depictive motifs that have been used to describe Cuba and their political effectiveness as they have persisted and changed since the early nineteenth century

Manufacturing the Enemy Keith Bolender, 2019-09-20 Mainstream media in the United States for the past 60 years has converged with the neo colonial foreign policy objectives of the state to create a misinformed biased narrative against the Cuban revolution Using extensive examples including pre revolutionary historic coverage journalist Keith Bolender reveals how the national press has established an anti Cuba chronicle in adherence to Washington's unrelenting regime change policies From coverage of the Bay of Pigs Cuban Missile Crisis the Cuban Five and the current issues of Obama's Cuban Thaw in 2014 to the renewed hostility under the Trump Administration the edition examines with specific clarity how damaging corporate media treatment of Cuba is to the understanding of the revolution and those who continue to support it This original treatment scrutinises the foundation for the media's hostility against Cuba's socialist political economic system providing new insight into the propaganda workings of the so called free press in the US and across Western liberal democracies The work is a unique resource for activists journalists and students interested in the ever complicated relationship between the United States and its island neighbour to the south

Imagining Southern Spaces Deniz Bozkurt-Pekar, 2021-02-22 Identifying the antebellum era in the United States as a transitional setting *Imagining Southern Spaces* investigates spatialization processes about the South during a time when intensifying debates over the abolition of slavery led to a heightened period of re spatialization in the region Taking the question of abolition as a major factor that shaped how different actors responded to these processes this book studies spatial imaginations in a selection of abolitionist and proslavery literature of the era Through this diversity of imaginations the book points to a multitude of Souths in various economic political and cultural entanglements in the American Hemisphere and the Circumatlantic Thus it challenges monolithic and provincial representations of the South as a provincial region distinct from the rest of the country

Freedom Roots Laurent Dubois, Richard Lee Turits, 2019-10-11 To tell the history of the Caribbean is to tell the history of the world write Laurent Dubois and Richard Lee Turits In this powerful and expansive story of the vast archipelago Dubois and Turits chronicle how the Caribbean has been at the heart of modern contests between slavery and freedom racism and equality and empire and independence From the emergence of racial slavery and European colonialism in the early sixteenth century to U S annexations and military occupations in the twentieth systems of exploitation and imperial control have haunted the region Yet the Caribbean is also where empires have been overthrown slavery was first defeated and the most dramatic revolutions triumphed Caribbean peoples have never stopped imagining and pursuing new forms of liberty Dubois and Turits reveal how the region's most vital transformations have been ignited in the conflicts over competing visions of land While the powerful sought a Caribbean awash in plantations for the benefit of the

few countless others anchored their quest for freedom in small farming and counter plantation economies at times succeeding against all odds Caribbean realities to this day are rooted in this long and illuminating history of struggle

Painting US Empire Maggie M. Cao,2025-01-03 A fresh look at the global dimensions of US painting from the 1850s to 1898 Painting US Empire is the first book to offer a synthetic account of art and US imperialism around the globe in the nineteenth century In this work art historian Maggie M Cao crafts a nuanced portrait of nineteenth century US painters complicity with and resistance to ascendant US imperialism offering eye opening readings of canonical works landscapes of polar expeditions and tropical tourism still lifes of imported goods genre paintings and ethnographic portraiture Revealing how the US empire was hidden in plain sight in the art of this period Cao examines artists including Frederic Edwin Church and Winslow Homer who championed and expressed ambivalence toward the colonial project She also tackles the legacy of US imperialism examining Euro American painters of the past alongside global artists of the present Pairing each chapter with reflections on works by contemporary anticolonial artists including Tavares Strachan Nicholas Galanin and Yuki Kihara Cao addresses important contemporary questions around representation colonialism and indigeneity This book foregrounds an underacknowledged topic in the study of nineteenth century US art and illuminates the ongoing ecological and economic effects of the US empire

The Cubalogues Todd Tietchen,2010-10-17 Immediately after the Cuban Revolution Havana fostered an important transnational intellectual and cultural scene Later Castro would strictly impose his vision of Cuban culture on the populace and the United States would bar its citizens from traveling to the island but for these few fleeting years the Cuban capital was steeped in many liberal and revolutionary ideologies and influences Some of the most prominent figures in the Beat Movement including Allen Ginsberg Lawrence Ferlinghetti and Amiri Baraka were attracted to the new Cuba as a place where people would be racially equal sexually free and politically enfranchised What they experienced had resounding and lasting literary effects both on their work and on the many writers and artists they encountered and fostered Todd Tietchen clearly documents the multiple ways in which the Beats engaged with the scene in Havana He also demonstrates that even in these early years the Beat movement expounded a diverse but identifiable politics

Babylost Monica J. Casper,2022-03-18 The U S infant mortality rate is among the highest in the industrialized world and Black babies are far more likely than white babies to die in their first year of life Maternal mortality rates are also very high Though the infant mortality rate overall has improved over the past century with public health interventions racial disparities have not Racism poverty lack of access to health care and other causes of death have been identified but not yet adequately addressed The tragedy is twofold it is undoubtedly tragic that babies die in their first year of life and it is both tragic and unacceptable that most of these deaths are preventable Despite the urgency of the problem there has been little public discussion of infant loss The question this book takes up is not why babies die we already have many answers to this question It is rather who cares that babies mostly but not only Black and Native American babies are dying before their first birthdays More

importantly what are we willing to do about it This book tracks social and cultural dimensions of infant death through 58 alphabetical entries from Absence to ZIP Code It centers women s loss and grief while also drawing attention to dimensions of infant death not often examined It is simultaneously a sociological study of infant death an archive of loss and grief and a clarion call for social change *The ^AHidden History of International Law in the Americas* Dr. Juan Pablo

Scarfi,2017-03-15 This book offers the first exploration of the deployment of international law for the legitimization of U S ascendancy as an informal empire in Latin America This book explores the intellectual history of a distinctive idea of American international law in the Americas focusing principally on the evolution of the American Institute of International

Law AIIL *The Third Century* Mark T. Gilderhus,David C. LaFevor,Michael J. LaRosa,2017-01-05 This text focuses on U S relations with Latin America from the advent of the New Diplomacy late in the nineteenth century to the present Providing a balanced perspective it presents both the United States view that the Western Hemisphere needed to unite under a common democratic capitalistic society and the Latin American countries response to U S attempts to impose these goals on its southern neighbors The authors examine the reciprocal interactions between the two regions each with distinctive purposes outlooks interests and cultures They also place U S Latin American relations within the larger global political and economic context *Latinx Experiences* Maria J. Villaseñor,Hortencia Jimenez,2023-07-12 This reader introduces students to the

variety and complexity of Latinxs experiences in the U S and prepares them for further study in this interdisciplinary field The opening essay written by the editors offers a broad overview of the approximately 59 million people in the U S who identify as Hispanic The rest of the book will consist of contributed essays from Latina o Chicana o scholars on a range of subjects including immigration citizenship and deportation racial identities political participation and power educational and economic achievement family religion media and popular culture Although the essays are written for lower division undergraduates they reflect many of the leading theoretical and methodological approaches in the field The essays are unified by an intersectional approach demonstrating how experiences and life chances of Latinxs are also shaped by gender social class sexuality age and citizenship status
