In Search of Climate Politics Matthew Paterson, 2021-08-26 This book addresses the crucial but oddly neglected question of what it means to say climate change is political

Transdisciplinary Perspectives on Transitions to Sustainability

Edmond Byrne, Gerard Mullally, Colin Sage, 2016-06-17 Demonstrating how a university can in a very practical and pragmatic way be re envisioned through a transdisciplinary informed frame this book shows how through an open and collegiate spirit of inquiry the most pressing and multifaceted issue of contemporary societal unsustainability can be addressed and understood in a way that transcends narrow disciplinary work It also provides a practical exemplar of how far more meaningful deliberation understandings and options for action in relation to contemporary sustainability related crises can emerge than could otherwise be achieved Indeed it helps demonstrate how only through a transdisciplinary ethos and approach can real progress be achieved The fact that this can be done in parallel to or perhaps underneath the day to day business of the university serves to highlight how even micro seed initiatives can further the process of breaking down silos and reuniting C P Snow's two cultures after some four centuries of the relentless project of modernity While much has been written and talked about with respect to both sustainability and transdisciplinarity this book offers a pragmatic example which hopefully will signpost the ways others can will and indeed must follow in our common quest for real progress

The Oxford Handbook of Environmental Political Theory Teena Gabrielson, Cheryl Hall, John M. Meyer, David Schlosberg, 2016-01-07 Set at the intersection of political theory and environmental politics yet with broad engagement across the environmental social sciences and humanities The Oxford Handbook of Environmental Political Theory defines illustrates and challenges the field of environmental political theory EPT Featuring contributions from distinguished political scientists working in this field this volume addresses canonical theorists and contemporary environmental problems with a diversity of theoretical approaches The initial volume focuses on EPT as a field of inquiry engaging both traditions of political thought and the academy In the second section the handbook explores conceptualizations of nature and the environment as well as the nature of political subjects communities and boundaries within our environments A third section addresses the values that motivate environmental theorists including justice responsibility rights limits and flourishing and the potential conflicts that can emerge within between and against these ideals The final section examines the primary structures that constrain or enable the achievement of environmental ends as well as theorizations of environmental movements citizenship and the potential for on going environmental action and change
