With Android you can do almost any computing task you can imagine. There are more than 400 000 Android applications apps to choose from. The majority of the apps are games and leisure programs. However today there are also apps for practically any type of office work and business tasks that you can imagine. Many office tasks which until recently could only be performed using a powerful PC or laptop can today easily be done using an Android tablet or smartphone. There are several excellent Android apps for word processing and spreadsheet calculations so that these and many other types of office work easily can be done on handheld Android device. This has led to a new way of working which is often called mobile computing. There are many excellent brands of Android tablets and smartphones on the market. Samsung is today seen as the leading manufacturer of Android smartphones and tablets. In 2010 Samsung launched the Galaxy Tab 7 1 tablet. The Galaxy Tab 7 1 quickly became highly popular and a benchmark for other Android tablets. Later more powerful and larger Galaxy tabs have been marketed including the Galaxy Tab 7 7 8 9 and 10 1.
