Critical Work And Radical Pedagogy Recalling Herbert Marcuse:

Critical Work and Radical Pedagogy Charles Reitz, 2011-09-01 Capitalism has long been armed with its own theory of work and wealth labor has not This essay will attempt to re think a critical philosophical analysis of labor and the human condition and build an alternative vision for labor Given recent global economic dislocations the time is ripe to reconstruct a critical theory of work We will build on and beyond the foundational theories of Herbert Marcuse to produce a revitalized theory of society grounded in a critical understanding of human working activity Herbert Marcuse s political philosophical vision and cultural critique continue to shed light on current debates concerning repressive democracy political and racial inequality education as social control and the radical meaning of political struggle especially where issues of alienation war oppression critical inquiry critical media literacy and civic revolutionary action are involved Marcuse s caustic condemnations of U S military aggression its need for an enemy the irrationality of U S economic waste destruction and affluence etc are particularly timely and deserve invigorated attention across this nation s campuses as well as in other cultural and political circles today Three major reasons compel us to highlight the most radical aspects of Marcuse s thought right now First of all Marcuse knew that because capitalism exists so too does exploitation and that system change is necessary and possible if we comprehend and refuse the system He stressed that system change requires a twofold refusal of its mode of production and the repressive satisfactions that replicate it Over the last several decades there has been a regression in the comprehensiveness of critical theory We are returning to Marcuse to fill in some of the key and notable economic deficits of contemporary forms of cultural commentary stemming from postmodern literary and aesthetic theory Secondly Marcuse not only described the obscenities of global inequality domination alienation and war in an extraordinarily vivid and effective manner more importantly his writing evokes labor solidarity among subaltern groups across traditional barriers of culture immigration status race gender wealth and income differentials and political philosophical diversity He elucidated social change strategies needed to help labor reclaim its humanist promise including tactics for intercultural multicultural organizational development Thirdly Marcuse was aware that critical theory needs to be taught in order to empower the exploited and oppressed hence the need for radical pedagogy This booklet presents a curriculum component that contributes to the signature pedagogy of radical social science It presents an analysis of the centrality of labor within the wealth and value production processes of the U S economy today and critically examines the relationship of property ownership to the origins of income inequality Economic processes today divest us from our own creative work yet these also form the sources of our future social power We have attempted to furnish the beginnings of a more comprehensive critical social theory stressing the centrality of labor in the economy

The Routledge Handbook of Critical Pedagogies for Social Work Christine Morley, Phillip Ablett, Carolyn Noble, Stephen Cowden, 2020-01-20 The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting edge overview of the work of classic and

contemporary theorists in a way that expands their application and utility in social work education and practice thus providing a bridge between critical theory philosophy and social work Each chapter showcases the work of a specific critical educational philosophical and or social theorist including Henry Giroux Michel Foucault Cornelius Castoriadis Herbert Marcuse Paulo Freire bell hooks Joan Tronto Iris Marion Young Karl Marx Antonio Gramsci and many others to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice The text exhibits a range of research based approaches to educating social work practitioners as agents of social change It provides a robust and much needed alternative paradigm to the technique driven conservative revolution currently being fostered by neoliberalism in both social work education and practice The volume will be instructive for social work educators who aim to teach for social change by assisting students to develop counter hegemonic practices of resistance and agency and reflecting on the pedagogic role of social work practice more widely The volume holds relevance for both postgraduate and undergraduate qualifying social work and human services courses around the world

Critical Theory: Rituals, Pedagogies and Resistance Peter McLaren, 2022-03-28 This collection of essays incorporates some of the most important and longstanding foundational texts in education developed by the leading educational neo Gramscian social theorist Peter McLaren The volume provides a much necessary framework for understanding more precisely not only the historical and philosophical foundations for McLaren s ideas but even more importantly it unpacks a clear understanding of the dynamics of ideological production framing the epistemicidal nature of capitalist schools The chapters provide state of the art approaches grounded in both Marxist social theory and post critical sensibilities They show the unique opportunities provided by critical theoretical approaches towards revolutionary pedagogies which are crucial to address the current challenges one is facing locally nationally and internationally Critical Theory Rituals Pedagogies and Resistance speaks to the current challenges we face as humanity not only situating them historically but also securitizing the role that our educational institutions curriculum matrixes and teacher education programs have played in such social havoc It provides crucial insights not only to help a better understanding of the accomplishments produced by the critical educational and curriculum river in the struggle against the educational and curriculum epistemicide but also to help explore alternative ways responsive to the world s endless epistemological difference and diversity While the future of our field needs to go beyond Peter McLaren s intellectual thesaurus it cannot certainly avoid going through him The itinerant curriculum theory and the ICTheorists are conscious about that Jo o M Paraskeva Professor of Educational Leadership and Policy Studies University of Strathclyde Ecology and Revolution Charles Reitz, 2018-10-11 A timely addition to Henry Giroux s Critical Interventions series Ecology and Revolution is grounded in the Frankfurt School critical theory of Herbert Marcuse Its task is to understand the economic architecture of wealth extraction that undergirds today s intensifying inequalities of class race and gender within a revolutionary ecological frame Relying on newly discovered texts from the Frankfurt Marcuse Archive this book builds theory

and practice for an alternate world system Ecology and radical political economy as critical forms of systems analysis show that an alternative world system is essential both possible and feasible despite political forces against it Our rights to a commonwealth economy politics and culture reside in our commonworks as we express ourselves as artisans of the common good It is in this context that Charles Reitz develops a GreenCommonWealth Counter Offensive a strategy for revolutionary ecological liberation with core features of racial equality women s equality liberation of labor restoration of nature leisure abundance and peace
