Circumfession Jacques Derrida, **Augustine and Postmodernism** John D. Caputo, Michael J. Scanlon, 2005-03-10
Scanlon and Mark Vessey Indiana Series in the Philosophy of Religion Merold Westphal general editor **Morality, Violence, and Ritual Circumcision** Na'ama Carlin, 2022-11-30 This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence Intervening in contemporary debates on the Jewish ritual of circumcision it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent An examination of the intersection of violence and morality this book rejects the binary logic on which popular debates on circumcision hinge arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad Engaging with the works of Jacques Derrida the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence the violence of being which resists definition through binary oppositions In so doing the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies As such this volume offers a compelling framework that investigates the relationship between bodies identities ethics and violence and will therefore appeal to scholars of sociology social theory and religion with interests in the sociology of the body ritual and cultural studies **The Derrida Dictionary** Simon Wortham, 2010-07-15 The Derrida Dictionary is a comprehensive and accessible guide to the world of Jacques Derrida the founder of deconstruction and one of the most important and influential European thinkers of the twentieth century Meticulously researched and extensively cross referenced this unique book covers all his major works ideas and influences and provides a firm grounding in the central themes of Derrida's thought Students will discover a wealth of useful information analysis and criticism A Z entries include clear definitions of all the key terms used in Derrida's writings and detailed synopses of his key works The Dictionary also includes entries on Derrida's major philosophical influences and those he engaged with such as Kant Hegel Husserl Freud Heidegger Foucault Lacan and Levinas It covers everything that is essential to a sound understanding of Derrida's philosophy offering clear and accessible explanations of often complex terminology The Derrida Dictionary is the ideal resource for anyone reading or studying Derrida deconstruction or modern European philosophy more generally **Womanizing Nietzsche** Kelly Oliver, 2016-02-11 In Womanizing Nietzsche Kelly Oliver uses an analysis of the position of woman in Nietzsche's texts to open onto the larger question of philosophy's relation to the feminine and the maternal Offering readings from Nietzsche Derrida Irigaray Kristeva Freud and Lacan Oliver builds an innovative foundation for an ontology of intersubjective relationships that suggests a new approach to ethics [In Search of Radical Theology](#) John D. Caputo, 2020-10-06 These sparkling essays from a seasoned scholar are a great breath of fresh air in our claustrophobic and catastrophic time Cornel West Capturing a career's worth of thought and erudition this rich

volume treats readers to creative thought careful argumentation and sophisticated analysis transmitted through the lucid accessible prose that has earned the author a wide readership of academics and non academics alike In tackling radical theology John D Caputo has in mind the deeper stream that courses its way through various historical and confessional theologies upon which these theologies draw even while it disturbs them from within They are well served by this disturbance because it keeps them on their toes When we read about professional theologians losing their jobs in confessional institutions the chances are that by earnestly digging into what is going on in their tradition they have hit upon radical theological rock Unlike modernist dismissals of religion radical theology does not debunk but re invents the theological tradition Radical theology Caputo says is a double deconstruction of supernatural theology on the one hand and of transcendental reason on the other and therefore of the settled distinctions between the religious and the secular Caputo also addresses the challenge for radical theology to earn a spot in the curriculum given that the radical makes it suspect among the confessional seminaries while the theology renders it suspect among university seminars Journeying from the academy to contemporary American culture In Search of Radical Theology includes a captivating presentation of radical political theology for the time of Trump This utterly unique volume not only brings readers on an enlightening tour of Caputo s thought but also invites us to accompany the author as he travels into intriguing new territories **Truth and Progress**

Richard Rorty,1991 The volume complements two highly successful previously published volumes of Richard Rorty s philosophical papers Objectivity Relativism and Truth and Essays on Heidegger and Others The essays in the volume engage with the work of today s most innovative thinkers including Robert Brandom Donald Davidson Daniel Dennett Jacques Derrida Juergen Habermas John McDowell Hilary Putnam John Searle and Charles Taylor The collection also touches on problems in contemporary feminism raised by Annette Baier Marilyn Frye and Catherine MacKinnon and considers issues connected with human rights and cultural differences Jacques Derrida and the Challenge of History Sean

Gaston,2018-11-23 This important new book argues that Jacques Derrida s work can be treated as the basis for a distinctive historiography The possibility of seeing Derrida not as a philosopher of language but as a philosopher of history has become more apparent with the recent publication of Derrida s 1964 1965 seminar Heidegger The Question of Being and History We now know that the problem of history was at the heart of Derrida s writing in the mid 1960s prior to the publication of his best known work Of Grammatology 1967 Arguing that Derrida s scholarship in the 1960s and early 1970s on historicism historicity and the problem of history can be treated as the basis for a philosophy of history Sean Gaston focuses on Derrida s work from the mid 1970s to the mid 1990s and his relentless questioning of context memory and narrative as the delineation of a deconstructive historiography The book raises a challenge for historians to think about both deconstruction and historiography arguing that contemporary philosophy can provide a basis for thinking about history in the name of a deconstructive historiography that is not incompatible with rigorous historical scholarship Haunted Words, Haunted

Selves Colby Dickinson, 2024-03-22 We are all haunted by things we fear repress and those things of which we have no conscious knowledge We are thus haunted by a variety of ghosts in our lives so that at times we might notice those things we have ignored and so too allow the repressed elements of our world a chance to speak more directly to us Being honest with ourselves means listening better to what haunts us and to wrestle with our own ghosts as humans have often claimed throughout history to wrestle with God Recognizing how we are ceaselessly haunted by that which threatens to undo our representations of ourselves is what draws together a series of reflections in this book on how we will never be able to rid ourselves of such hauntings By examining a series of hauntings this study looks at what continues to haunt the field of continental philosophy the various things that haunt our sovereign construction of ourselves the church our words and language in general and even how our texts are endlessly haunted by the autobiographical I we are often taught to exclude from our writings

Ghost Writing in Contemporary American Fiction David Coughlan, 2016-11-05 This book examines representations of the specter in American twentieth and twenty first century fiction David Coughlan s innovative structure has chapters on Paul Auster Don DeLillo Toni Morrison Marilynne Robinson and Philip Roth alternating with shorter sections detailing the significance of the ghost in the philosophy of Jacques Derrida particularly within the context of his 1993 text *Specters of Marx* Together these accounts of phantoms shadows haunts spirit the death sentence and hospitality provide a compelling theoretical context in which to read contemporary US literature *Ghost Writing in Contemporary American Fiction* argues at every stage that there is no self no relation to the other no love no home no mourning no future no trace of life without the return of the specter that is without ghost writing
