Cobra II The Inside Story Of The Invasion And Occupation Of Iraq:

Cobra II Michael R. Gordon, Bernard E. Trainor, 2007-02-27 Written by the chief military correspondent of the New York Times and a prominent retired Marine general this is the definitive account of the invasion of Iraq A stunning work of investigative journalism Cobra II describes in riveting detail how the American rush to Baghdad provided the opportunity for the virulent insurgency that followed As Gordon and Trainor show the brutal aftermath was not inevitable and was a surprise to the generals on both sides Based on access to unseen documents and exclusive interviews with the men and women at the heart of the war Cobra II provides firsthand accounts of the fighting on the ground and the high level planning behind the scenes Now with a new afterword that addresses what transpired after the fateful events of the summer of 2003 this is a peerless re creation and analysis of the central event of our times

Cobra II Michael R. Gordon, Bernard E. Trainor, 2006 Informed by access to still secret documents interviews with top field commanders and a review of the military's own internal after action reports this is the definitive chronicle of America's invasion and occupation of Iraq a conflict that could not be lost but one that the United States failed to win decisively From the Pentagon to the White House to the American command centers in the field the book reveals the inside story of how the war was actually planned and fought Drawing on classified United States government intelligence it traces the interactions among the generals Defense Secretary Donald Rumsfeld and President George W Bush provides an account of how Saddam Hussein and his high command developed and prosecuted their war strategy reconstructs the principal battles from interviews with those who fought them and documents with precision the failures of American intelligence and the mistakes in administering postwar Iraq

Hard Lessons: the Iraq Reconstruction Experience Stuart W. Bowen, 2009-05 A combination of poor planning weak oversight and greed cheated U S taxpayers and undermined American forces in Iraq and Afghanistan U S taxpayers have paid nearly 51 billion for projects in Iraq including training the Iraqi army and police and rebuilding Iraq's oil electric justice health and transportation sectors Many of the projects did not succeed partly because of violence in Iraq and friction between U S officials in Washington and Iraqi officials in Baghdad The U S gov't was neither prepared for nor able to respond quickly to the ever changing demands of stabilizing Iraq and then rebuilding it This report reviews the problems in the war effort which the Bush admin claimed would cost 2 4 billion Charts and tables

Light It Up John Pettegrew, 2015-11-15 Examines the U S Marines visual culture of combat in the Iraq War American military power in the War on Terror has increasingly depended on the capacity to see the enemy The act of seeing enhanced by electronic and digital technologies has separated shooter from target eliminating risk of bodily harm to the remote warrior while YouTube videos eroticize pulling the trigger and video games blur the line between simulated play and fighting Light It Up examines the visual culture of the early twenty first century military Focusing on the Marine Corps which played a critical part in the invasion and occupation of Iraq John Pettegrew argues that U S military force in the Iraq War was projected through an optics of combat Powerful military technology developed in the

Iraq and Afghanistan wars has placed war in a new posthuman era Pettegrew s interviews with marines as well as his analysis of first person shooter videogames and combat footage lead to startling insights into the militarization of popular digital culture An essential study for readers interested in modern warfare policy makers and historians of technology war and visual and military culture

readers to come to terms with the widely shared but often competing values that must be balanced and rebalanced in the ongoing policy making process affecting issues of the highest concern to the American public **Encyclopedia of Military Science** G. Kurt Piehler,2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today s military Entries in this four volume work include coverage of the duties responsibilities and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political social legal economic and technological factors A large component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events Click here to read an article on The Daily Beast by Encyclopedia editor G Kurt Piehler Why Don t We Build Statues For Our War Heroes Anymore **America's Dirty Wars** Russell Crandall,2014-04-28 This book examines the long complex experience of American involvement in irregular warfare It begins with the American Revolution in 1776 and chronicles big and small irregular wars for the next two and a half centuries What is readily apparent in dirty wars is that failure is painfully tangible while success is often amorphous Successfully fighting these wars often entails striking a critical balance between military victory and politics America s status as a democracy only serves to make fighting and to a greater degree winning these irregular wars even harder Rather than futilely insisting that Americans should not or cannot fight this kind of irregular war Russell Crandall argues that we would be better served by considering how we can do so as cleanly and effectively as possible *Foreign Policy* Steve|Dunne Smith (Tim|Hadfield, Amelia|Kitchen, Nicholas|Smith, Steve),2024
