Online Supervision Anne Stokes, 2023-04-21 As online therapy becomes more mainstream the importance of using a means of supervision which parallels this is increasingly being recognised by practitioners and the professional bodies Very little has been written about this newly developing way of working so this book is timely Online Supervision A Handbook for Practitioners covers a wide range of issues from the practical aspects of how supervision happens through research legal and ethical issues to specific therapeutic settings and issues Existing models of supervision are considered in the context of the online setting and new models which have been developed specifically for supervising online are explored All chapters are authored by experienced online therapists and supervisors who bring their considerable knowledge from their practice to illuminate this growing area of the profession In many chapters anonymised case examples illustrate the text alongside reflective activities which readers can choose to undertake While the book aims to develop the practice of online supervision of online therapists it is recognised that there are circumstances which mean that some practitioners may choose to engage in online supervision of their face to face work This is recognised and guidelines for offering and engaging in online supervision are discussed Many practitioners begin to offer online supervision without specialised training and the final chapter centres on a discussion about the value and

necessity of undertaking preparation for working in a new medium Online Supervision A Handbook for Practitioners will be highly readable and accessible to both experienced practitioners and newcomers to this field **Organizations as**

Wrongdoers Stephanie Collins, 2023-01-24 Organizations do moral wrong States pursue unjust wars businesses avoid tax charities misdirect funds Our social political and legal responses require guidance We need to know what we are responding to and how we should respond to it We need a metaphysical and moral theory of wrongful organizations This book provides a new such theory paying particular attention to questions that have been underexplored in existing debates These questions include where are organizations located as material objects in the natural world What is the metaphysical relation between organizations and their members Can organizations be blameworthy for attitudes and character traits as well as for actions What about feelings of guilt remorse and shame can organizations feel these emotions and why does this matter How and why are members implicated in organizations wrongs How should organizations reparative costs be apportioned among members The book provides provocative answers to these questions It argues that organizations are material objects with humans as material parts much like how a pizza is a material object with slices as material parts This picture helps us make sense of organizations blameworthiness including blame for organization level actions attitudes and character traits What is more organizations can experience moral self awareness a crucial component of guilt remorse and shame Members can be implicated in organizations actions in numerous ways and it is argued members level of implication should determine their share of organizations reparative burdens
