Economic wash system

Using artificial intelligence, the washer uses minimum energy and water by selecting optimal water level and washing time.

Low noise system

The washer minimizes the washing and spinning noises by sensing the amount of laundry.

Child-Lock

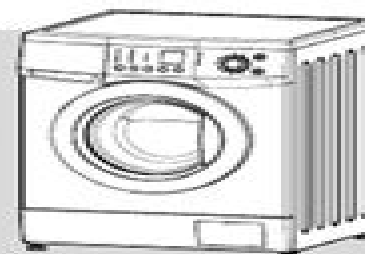

The Child-Lock system has been used to prevent children from pressing any button to change the program during operation.

Nano-silver sterilization washing(Optional)

By applying very fine silver particles on essential parts inside, the washer sterilizes up to 99.9% as is done by boiling wash.

Air bubble washing(Optional)

This is an advanced technology that generates millions of air bubbles inside the drum on washing sequence, and the bubbles dissolve the detergent particles completely and cleanse all the soil in clothes gently and neatly.
