

CATHERINE E. HOUSECROFT

INORGANIC CHEMISTRY

FIFTH EDITION

Solutions Manual

Now in its fifth edition, Housecroft & Sharpe's *Inorganic Chemistry* is a well-respected and leading international textbook. This *Solutions Manual* accompanies the main text and provides model answers to the end-of-chapter problems, linking to relevant sections and figures in the main text as appropriate.

Solutions in this manual are fully worked, making them of maximum benefit to students during in-course assessment and end-of-course examination problems. Using the *Solutions Manual* will reinforce learning and develop subject knowledge and skills. The solutions are referenced into the literature and diagrams are simplified to coach students in how to achieve a similar style in their own work.

Catherine E. Housecroft is Professor of Chemistry at the University of Basel, Switzerland. She is the author of a number of textbooks and has had teaching experience in the UK, Switzerland, South Africa and the USA. She has published around 500 research papers and reviews, and her current research interests include aspects of coordination chemistry associated with solar energy conversion, solid state lighting, water oxidation, porous coordination polymers and networks and hierarchical assemblies.
