Pauwels, 2016-04-06 Historian Jacques Pauwels applies a critical revisionist lens to the First World War offering readers a fresh interpretation that challenges mainstream thinking As Pauwels sees it war offered benefits to everyone across class and national borders For European statesmen a large scale war could give their countries new colonial territories important to growing capitalist economies For the wealthy and ruling classes war served as an antidote to social revolution encouraging workers to exchange socialism s focus on international solidarity for nationalism s intense militarism And for the working classes themselves war provided an outlet for years of systemic militarization quite simply they were hardwired to pick up arms and to do so eagerly To Pauwels the assassination of Archduke Franz Ferdinand in June 1914 traditionally upheld by historians as the spark that lit the powder keg was not a sufficient cause for war but rather a pretext seized upon by European powers to unleash the kind of war they had desired But what Europe s elite did not expect or predict was some of the war s outcomes social revolution and Communist Party rule in Russia plus a wave of political and social democratic reforms in Western Europe that would have far reaching consequences Reflecting his broad research in the voluminous recent literature about the First World War by historians in the leading countries involved in the conflict Jacques Pauwels has produced an account that challenges readers to rethink their understanding of this key event of twentieth century world history *Die europäische Ordnung stirbt ... - Religion und Geschichtskonstruktion im Angesicht der Katastrophe* Silke Kubik, 2008 Den Katastrophen zu Beginn des 20 Jahrhunderts versuchen Elisabeth Langgesser und Hermann Broch in ihren Epochenanalysen Die Schlafwandler und Das unauslöschliche Siegel Sinn zu verleihen Sie verbinden

Historische Debatten und Kontroversen im 19. und 20. Jahrhundert J rgen Elvert, Susanne Krauss, 2003 Historische

Debatten und Kontroversen über Phänomene der menschlichen Vergangenheit haben die Geschichtswissenschaft seit ihren Anfängen begleitet und sind in vielen Fällen auch in einer breiteren Öffentlichkeit auf Resonanz gestoßen. Bei der systematisch vergleichenden Betrachtung dieser Diskurse fällt auf, dass sie einerseits zum Motor konstruktiven Erkenntnisfortschritts, andererseits zum Instrument für das Erreichen gegenwärtiger, häufig politischer Ziele werden konnten. Insbesondere wenn Konstruktion, Variation oder Destruktion eines oder mehrerer grundsätzlicher gesellschaftlicher Mythen in der Debatte mitschwingen, sind umfangreiche Verwerfungen zu erwarten. Zusammenfassend lässt sich immer wieder feststellen, dass die polemische Intensität einer Kontroverse sich zum wissenschaftlichen Erkenntniswert umgekehrt proportional verhält, da nur die Einhaltung diskursiver Regeln im Sinne der Prinzipien von *afair play* die Bedingungen für konstruktive und produktive Auseinandersetzungen schafft. Franz Steiner 2002

Imperial Germany Revisited Sven Oliver Müller, Cornelius Torp, 2013. The German Empire: its structure, its dynamic development between 1871 and 1918 and its legacy have been the focus of lively international debate that is showing signs of further intensification as we approach the centenary of the outbreak of World War I. Based on recent work and scholarly arguments about continuities and discontinuities in modern German history from Bismarck to Hitler, well-known experts broadly explore four themes: the positioning of the Bismarckian Empire in the course of German history; the relationships between society, politics and culture in a period of momentous transformations; the escalation of military violence in Germany's colonies before 1914 and later in two world wars; and finally the situation of Germany within the international system as a major political and economic player. The perspectives presented in this volume have already stimulated further argument and will be of interest to anyone looking for orientation in this field of research.
