Nietzsche and the Question of Interpretation Alan D. Schrift, 1990 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company **Hegel and Language** Jere O'Neill Surber, 2012-02-01 The first anthology explicitly dedicated to Hegel's linguistic thought Hegel and Language presents various facets of a new wave of Hegel scholarship The chapters are organized around themes that include the possibility of systematic philosophy truth and objectivity and the relation of Hegel's thought to analytic and postmodern approaches to language While there is considerable diversity among the various approaches to and assessments of Hegel's linguistic thought the volume as a whole demonstrates that not only was language central for Hegel but also that his linguistic thought still has much to offer contemporary philosophy The book also includes an extensive introductory survey of the linguistic thought of the entire German Idealist movement and the contemporary issues that emerged from it Deconstruction and the Work of Art Martta Heikkilä, 2021-07-29 The contemporary idea of the work of art is paradoxically both widely used and often unexamined Therefore we must re evaluate the concept before we can understand what the deconstruction of aesthetics means for thinkers like Jacques Derrida Jean

Luc Nancy and Philippe Lacoue Labarthe By examining their analyses of works of visual art and contextualizing their thinking on the matter Martta Heikkil asserts that the implications of the work of art and the aesthetic apply not only to philosophical questions but also to a broader area Instead of the totality represented by the historical concept of Art poststructuralist thinkers introduce the idea of the radical multiplicity of art and its works From this notion arises the fundamental issue in Derrida and the poststructuralist tradition how can we speak philosophically of art which always exists as singular instances as works In Deconstruction and the Work of Art Visual Arts and Their Critique in Contemporary French Thought Heikkil shows that the deconstructionist notions of art are still influential in the discourses of contemporary art in which artworks proliferate and the concept of work is open ended and expanding This book offers an introduction to the deconstructionist theory of art and brings new perspectives to the complex undecidable relation between philosophy and art

A Postmodern Theology of Ritual Action Jonathan L. Best, 2019-02-26 A Postmodern Theology of Ritual Action is a unique work that seeks to explore where we find meaning within ritual and actions within the church Bridging hermeneutics philosophy and postmodern thought this work seeks to explore how to do theology with the community through conversation Beginning with the mindset that meaning is already present within ritual action rather than outside it Best engages the practice of foot washing among the Original Free Will Baptist denomination of eastern North Carolina Foot washing suggests a new future for theology a future that models love service and acceptance Incorporating insights gained from conversing with philosophy theology and the Original Free Will Baptists foot washing points toward a future relational practical theology A Postmodern Theology of Ritual Action is a captivating work that draws from both philosophers and theologians to show that we can learn much by listening to the voices of religious practitioners

The Ways We Think Emma Williams, 2016-02-16 The Ways We Think critiques predominant approaches to the development of thinking in education and seeks to offer a new account of thought informed by phenomenology post structuralism and the ordinary language philosophical traditions Presents an original account of thinking for education and explores how this alternative conception of thought might be translated into the classroom Explores connections between phenomenology post structuralism and ordinary language philosophical traditions Examines the relevance of language in accounts of how we think Investigates the philosophical accounts of Gilbert Ryle Martin Heidegger John Austin and Jacques Derrida Draws upon experience of own teaching practice as philosopher in residence

The Palgrave Handbook of German Idealism and Poststructuralism Tilottama Rajan, Daniel Whistler, 2023-06-01 The Palgrave Handbook of German Idealism and Poststructuralism offers a wide ranging dialogue between theory and German Idealism joining up the various lines of influence connecting German Idealist and Romantic philosophies in all their variety to post 68 European philosophies from Derrida and Deleuze to i ek and Malabou Key features Provides in depth reflections on the various conversations between German Idealism and theory including an expanded canon of Idealist philosophers and a wide range of contemporary anti foundationalist thinkers Includes

marginalized voices and concepts that reflect both contemporary concerns as well as the sheer abundance of readings of German Idealism undertaken by European theorists over the last fifty years Expands the existing scholarship by focusing on new future directions emerging out of the idealism theory relationship The Palgrave Handbook of German Idealism and Poststructuralism is essential reading for researchers and students of all levels from senior scholars to advanced undergraduates working on the legacy of German Idealist philosophers within philosophy departments as well as all those interested in theory from across the humanities

Postcolonial Theory and Autobiography David Huddart, 2008-04-18

Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn Despite the fact that autobiography is frequently dismissed for its Western masculine bias David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity Focusing on the influence of post structuralist theory on postcolonial theory and vice versa this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories Offering a fresh perspective on familiar critical figures like Edward W Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida Gilles Deleuze and Alain Badiou this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience investigation and knowledge
