Derrida On The Mend Derrida On The Mend:

Derrida on the Mend Robert R. Magliola, 1984 *Derrida on the Mend* Robert Magliola, 1984 Magliola's exposition of Derrida has been acclaimed as the best in English. Indeed, it is the only account I know which brings an alert and independent questioning mind to bear on Derrida's arguments: a mind which at times seems to play Kierkegaard into Derrida's Hegel. Japanese Journal of Religious Studies Philosophy. Angels of Desire Jay Johnston, 2016-04-08 The idea that the human body consists of subtle bodies, psycho-spiritual essences, can be found in a variety of esoteric traditions. This radical form of selfhood challenges the dualisms at the heart of Western discourse: mind/body, divine/human, matter/spirit, reason/emotion. In other words, *Angels of Desire* explores the aesthetics and ethics of subtle bodies. What emerges is an understanding of embodiment not exclusively tied to materiality. The book examines the use of subtle bodies across a range of traditions: yogic, tantric, theosophical, hermetic, and Sufi. *Angels of Desire* shows the relevance of the subtle body for religion, philosophy, art, history, and contemporary feminist religious studies and theories of desire.

Buddhisms and Deconstructions Robert Magliola, 2006-03-20 *Buddhisms and Deconstructions* considers the connection between Buddhism and Derridean deconstruction, focusing on the work of Robert Magliola. Fourteen distinguished contributors discuss deconstruction and various Buddhisms: Indian, Tibetan, and Chinese Chan, followed by an afterword in which Magliola responds directly to his critics.

The Resonance of Emptiness Gay Watson, 2001 This book presents an exploration of Buddhist philosophy and practice as a potential resource for an approach to psychotherapy which is responsive to the needs of its time and context, and attempts to open up a three-way dialogue between Buddhism, psychotherapy, and contemporary discourse to reveal a meaningful theory and practice for a contemporary psychotherapy. This book raises the question of what it is in Buddhism itself that provides such a rich resource for psychotherapy. Gay Watson firmly places her exploration of these themes within the context of contemporary life and thought as a response to the pathologies, physical and intellectual, of our time. Organized according to the traditional Tibetan plan of Ground, Path, and Fruition, the book first presents a brief survey of Western psychotherapies, followed by an introduction to Buddhist views with particular reference to those most relevant to psychotherapy. Path considers the two major branches of the Buddhist way: ethics and meditation in the context of contemporary life and psychotherapy. Fruition compares the goal of Buddhism and psychotherapy and subsequently explores the implications of adopting Buddhist influence in the light of contemporary discourse and of the experienced domains of body, speech, and mind. Finally, the lineaments of a contemporary Buddhist-inspired psychotherapy are suggested. The book will be of great interest to those concerned with the translation of Buddhism into contemporary life and also to students of psychotherapy and its expansion, particularly into spiritual and transpersonal dimensions.

A Passion for the Impossible Mark Dooley, 2012-02-01 Presenting the first systematic appraisal of the thought of John D. Caputo, one of America's most respected and controversial continental thinkers, this book brings together internationally renowned philosophers, theologians,

and cultural critics One highlight of the work is an interview with Jacques Derrida in which Derrida talks candidly about his reaction to Caputo's writings and spells out the implications for religion and the question of God after deconstruction Caputo responds to the concerns expressed by his interlocutors in the same humorous erudite and challenging spirit for which he is known The result is a lively and stimulating debate covering themes in the philosophy of religion deconstruction political philosophy feminism and hermeneutics as well as issues surrounding the work of Aquinas Nietzsche Kierkegaard Heidegger Foucault Derrida and Rorty

The Wreath of Wild Olive Mihai Spărișu, 1997-01-01 Examines the concept of play in Western thought with special emphasis on the relationship between aesthetics and ethics and envisions literary discourse as contributing to an alternative mentality based on peace rather than power

Utopia and Consciousness William S. Haney II, 2011-04-15 In his book *Archaeologies of the Future: The Desire Called Utopia and Other Science Fictions* 2007 Fredric Jameson analyzes the multiple components of utopia and the possibility of achieving utopia in the near future As this book argues however human civilization will never achieve utopia unless humans reach a state of pure consciousness in which they will use their full mental potential and avoid making blunders in life that would undermine the possibility of a utopia This book develops a non teleological comparative poetics between Western and Sanskrit literary traditions by analyzing their opposing theories of language consciousness and meaning This comparison seeks to demonstrate the complementary nature of their two perspectives the objective conceptual emphasis of contemporary Western theory and the subjective experiential emphasis of Sanskrit poetics The potential contribution to the West of Indian culture in general and Sanskrit poetics in particular centers on the phenomenon of direct experience Without the direct experience of pure consciousness humans will not achieve a state of utopia because they will remain entangled in materialism without access to idealism or spiritualism available only through the direct experience of the unity of pure consciousness or the void of conceptions

D. T. Suzuki on the Unconscious in Zen Art, Meditation, and Enlightenment Steve Odin, 2025-07-01 A comprehensive study of D T Suzuki's Zen philosophy and philosophical psychology in relation to his Buddhist understanding of the cosmic Unconscious This book explores how the Japanese philosopher D T Suzuki 1870-1966 developed an integral synthesis of Eastern and Western sources to establish a modern philosophical psychology of the cosmic Unconscious which he in turn used as the basis to interpret every aspect of Zen art meditation and enlightenment Beyond Freud's personal unconscious and Jung's collective unconscious according to Suzuki is the cosmic Unconscious of Zen which as absolute nothingness is the fountain of inexhaustible creative potentialities and the source of all Zen inspired arts The book demonstrates that like the Kyoto School of modern Japanese philosophy Suzuki's Zen endeavors to overcome the existential problem of nihilism or relative nothingness by shifting to the openness of absolute nothingness wherein emptiness is fullness and all things are disclosed in the evanescent beauty of their suchness Suzuki however formulates his scheme in terms of a depth psychology where the cosmic Unconscious is the encompassing locus of absolute nothingness Ultimately the book argues that by

integrating both Eastern and Western views of the unconscious psyche including the different schools of Zen and Mahayana Buddhism as well as American French and German theories of the unconscious Suzuki's Zen concept of the cosmic Unconscious constitutes a significant original contribution to philosophical psychology **Going beyond the Pairs** Dennis McCort, 2001-06-21 In *Going beyond the Pairs* Dennis McCort examines the theme of the *coincidentia oppositorum* the tendency of a thing or relationship to turn under certain conditions into its own opposite as it is expressed in German Romanticism Zen Buddhism and deconstruction McCort argues that the *coincidentia* can be useful for understanding and comparing a variety of cultural forms including systems of myth religions ancient and modern laws of social organization speculative philosophies East and West psychological theories and therapeutic practices and dynamic organizing principles of music art and literature The book touches on a variety of Western and Eastern writers and thinkers including Thomas Merton Jacques Derrida Nishida Kitaro Rainer Maria Rilke Franklin Merrell Wolff Franz Kafka Novalis Renzai Zen J D Salinger and the mysterious doughnut loving editor of the medieval Chinese koan collection Mumonkan
