Descriptive Translation Studies And Beyond:

Descriptive Translation Studies and Beyond Gideon Toury, 1995 A replacement of the author's well known book on Translation Theory In Search of a Theory of Translation 1980 this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline having immediate consequences for issues of both a theoretical and applied nature Methodological discussions are complemented by an assortment of case studies of various scopes and levels with emphasis on the need to contextualize whatever one sets out to focus on Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three Concrete descriptive issues are here tackled within ever growing contexts of a higher level texts and modes of translational behaviour in the appropriate cultural setup textual components in texts and through these texts in cultural constellations Part Four asks the question What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice This is an excellent book for higher level translation courses

Beyond Descriptive Translation Studies Anthony Pym, Miriam Shlesinger, Daniel Simeoni, 2008 To go beyond the work of a leading intellectual is rarely an unambiguous tribute However when Gideon Toury founded Descriptive Translation Studies as a research based discipline he laid down precisely that intellectual challenge not just to describe translation but to explain it through reference to wider relations That call offers at once a common base an open and multidirectional ambition and many good reasons for unambiguous tribute The authors brought together in this volume include key players in Translation Studies who have responded to Toury's challenge in one way or another Their diverse contributions address issues such as the sociology of translators contemporary changes in intercultural relations the fundamental problem of defining translations the

nature of explanation and case studies including pseudotranslation in Renaissance Italy Sherlock Holmes in Turkey and the coffee and sugar economy in Brazil All acknowledge Translation Studies as a research based space for conceptual coherence and creativity all seek to explain as well as describe In this sense we believe that Toury's call has been answered beyond expectations

Descriptive Translation Studies - and beyond Gideon Toury, 2012-11-21 This is an expanded and slightly revised version of the book of the same title which caused quite a stir when it was first published 1995 It thus reflects an additional step in an ongoing research project which was launched in the 1970s The main objective is to transcend the limitations of using descriptive methods as a mere ancillary tool and place a proper branch of DTS at the very heart of the discipline between the theoretical and the applied branches Throughout the book theoretical and methodological discussions are illustrated by an assortment of case studies the emphasis being on the need to take whatever one wishes to focus on within the contexts which are relevant to it Part One discusses the pivotal position of the descriptive branch within Translation Studies and Part Two then outlines a detailed rationale for that positioning This in turn supplies a framework for the case studies comprising Part Three where a number of exemplary issues are analysed and contextualized texts and modes of translational behaviour are situated in their cultural setting and textual components are related to their texts and then also to the cultural constellations in which they are embedded All this leads to Part Four which asks what the knowledge accumulated through descriptive studies of the kind advocated in the book is likely to yield in terms of both the theoretical and the applied branches of the field All in all an innovative thought provoking book which no one with a keen interest in translation can afford to ignore

Claims, Changes and Challenges in Translation Studies Gyde Hansen, Kirsten Malmkjær, Daniel Gile, 2004-01-01 The volume contains a selection of papers both theoretical and empirical from the European Society for Translation Studies EST Congress held in Copenhagen in September 2001 The EST Congresses held every three years in a different country reflect current ideas theories and studies covering the whole range of Translation both oral and written and the papers collected here authored by both experienced and young translation scholars provide an up to date picture of some concerns in the field Topics covered include translation universals linguistic approaches to translation translation strategies quality and assessment issues screen translation the translation of humor terminological issues translation and related professions translation and ideology language brokering by children Robert Schumann's relation to translation directionality in translation and interpreting community interpreting in Italy issues in interpreting for refugees notes in consecutive interpreting interpreting prosody and frequent weaknesses in translation papers in the context of the editorial process

The Turns of Translation Studies Mary Snell-Hornby, 2006-01-01 What's new in Translation Studies In offering a critical assessment of recent developments in the young discipline this book sets out to provide an answer as seen from a European perspective today Many new ideas actually go back well into the past and the German Romantic Age proves to be the starting point The main focus lies however on the last 20 years and beginning with the

cultural turn of the 1980s the study traces what have turned out since then to be ground breaking contributions new paradigms as against what was only a change in position on already established territory shifting viewpoints Topics of the 1990s include nonverbal communication gender based Translation Studies stage translation new fields of interpreting studies and the effects of new technologies and globalization including the increasingly dominant role of English The author's aim is to stimulate discussion and provoke further debate on the current profile and future perspectives of Translation Studies

Translation Studies beyond the Postcolony Ilse Feinauer, Kobus Marais, 2017-01-06 This edited volume explores the role of postcolonial translation studies in addressing issues of the postcolony It investigates the retention of the notion of postcolonial translation studies and whether one could reconsider or adapt the assumptions and methodologies of postcolonial translation studies to a new understanding of the postcolony to question the impact of postcolonial translation studies in Africa to address pertinent issues The book also places the postcolony in historical perspective and takes a critical look at the failures of postcolonial approaches to translation studies The book brings together 12 chapters which are divided into three sections namely Africa the Global South and the Global North As such the volume is able to consider the postcolony and even conceptualisations beyond the postcolony in a variety of settings worldwide
