Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can

constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism
