The Baby as Subject Frances Thomson-Salo, Paul Campbell, 2018-05-01 This book is a collection of papers by clinicians united in their conviction about the importance of directly engaging and interacting with the baby in the presence of the parents whenever possible This approach which draws on the work of Winnicott Trevarthen and Stern honours the baby as subject It re presents the baby to the parents who may in that way see a new child in turn shaping the infant s implicit memories and reflective thinking Recent neurobiological attachment and developmental psychology models inform the work The book describes the underpinning theoretical principles and the settings and forms of direct clinical practice ranging from work with acutely ill babies to more everyday interventions in crying feeding and sleeping difficulties as well as infant parent psychotherapy Clinicians at The Royal Children s Hospital Melbourne from the disciplines of psychiatry psychoanalysis psychology nursing speech pathology child psychotherapy paediatrics and music therapy describe their work with ill and suffering babies and their families

Early Interaction and Developmental Psychopathology Gisèle Apter, Emmanuel Devouche, Maya Gratier, 2019-05-28 This first book of a two volume series describes current research and state of the art clinical practice the shed light on the developmental origins of psychopathology in the first year of life i e approximately up to the emergence of secondary intersubjectivity and or walking The second volume explores the interactional underpinnings of psychopathology in toddlerhood from the time of voluntarily gross motor functioning to the emergence and basic organization of symbolic language at 24 30 months A comprehensive approach is adopted focusing on the fundamentally interactive nature of early development and examining interactions both with caregivers and more broadly with the socio cultural environment The books describe the processes involved in psychopathological trajectories and provide clinical insight into tailored culturally sensitive therapeutic care in diverse environments This volume discusses in detail situations placing the infant at risk and the nature of infant development including communication intersubjectivity functional development and affective and emotional development Culturally and socially sensitive approaches to psychopathology are examined with examples of specific infant and family centered therapies Information on risk of abuse and neglect and infant protection policies is included

Simultaneous Treatment of Parent and Child Saralea E. Chazan, 2003 The author s introduction to the simultaneous treatment of parent and child brings together theoretical background and suggestions for practice in an accessible and comprehensive format This useful book will be a welcome resource for social workers child

psychiatrists family therapists and other professionals working with children Mothers, Infants and Young Children of September 11, 2001 Beatrice Beebe, Phyllis Cohen, K. Mark Sossin, Sara Markese, 2013-09-13 The group of papers presented in this volume represents ten years of involvement of a group of eight core therapists working originally with approximately forty families who suffered the loss of husbands and fathers on September 11 2001 The project focuses on the families of women who were pregnant and widowed in the disaster or of women who were widowed with an infant born in the previous year This book maps the support and services provided without cost to the families by the primary prevention project the September 11 2001 Mothers Infants and Young Children Project organised by a highly trained group of therapists specialising in adult child mother infant and family treatment as well as in nonverbal communication The demands of the crisis led these therapists to expand on their psychoanalytic training fostering new approaches to meeting the needs of these families They sought out these families offering support groups for mothers and their infants and young children in the mothers own neighbourhoods They also brought the families to mother child videotaped play sessions at the New York State Psychiatric Institute at Columbia University followed by video feedback and consultation sessions In 2011 marking the 10th anniversary of the World Trade Center tragedy the Project continues to provide services without cost for these mothers who lost their husbands for their infants who are now approximately ten years old and for the siblings of these children This book was originally published as a special issue of the Journal of Infant Child and Adolescent Psychotherapy *Attachment Across the Life Cycle* Colin Murray Parkes, Joan Stevenson-Hinde, Peter Marris, 2006-04-21 To explain and understand the patterns that attachment play in psychiatric and social problems a body of knowledge has sprung up which owes much to the pioneering work of the late John Bowlby This book draws together recent theoretical contributions research findings and clinical data from psychiatrists psychologists sociologists and ethologists from Britain America and Europe *Parents Are Our Other Client* Sandra Wieland, 2017-09-19 Parents Are Our Other Client Ideas for Therapists Social Workers Support Workers and Teachers stands out among the vast literature on counseling children and families by finally giving therapists social workers support workers and teachers the tools necessary to work with the single most significant influence on children the parents This book Explains in an accessible and readable format how parenting patterns are learned unconsciously during early childhood and emerge later when people become parents Delivers a comprehensive and practical guide for professionals working to help parents see their children differently and change the way they interact with their children Clarifies why directing attention to the non verbal areas of a parent s brain with techniques such as imaging is essential for achieving a shift away from early learned patterns Examines how a professional s own childhood experience influences the way he or she works with parents and how professionals can shift to more positive responding even with the most resistant parent Provides informative clinical illustrations based on current research and the authors extensive clinical and supervisory experience **Transforming Despair to Hope** Monica Lanyado, 2017-11-20 Transforming Despair to Hope

Reflections on the Psychotherapeutic Process with Severely Neglected and Traumatized Children offers a thorough overview of the problems and rewards of trying to help severely neglected and traumatized children. Drawing on over 40 years of clinical experience, Monica Lanyado provides a historical and social perspective on this challenging population as well as helpful theoretical frameworks and thoughtful support for all professionals and clinicians working with these children. This book brings together selected past writings and new chapters from Lanyado. In it, she describes the consequences of severe neglect and trauma on a child's emotional development and then goes on to examine what it is that brings about positive change. By using vivid clinical examples of therapeutic practice with these children, she elucidates the difficulties associated with this population as well as for those who care for them in families and in residential settings. Transforming Despair to Hope is a valuable resource for child and adolescent mental health professionals and trainee clinicians as well as those in related fields working with children in need.

Becoming Who We Are Mary K. Rothbart, 2012-09-12. This definitive work comprehensively examines the role of temperament in the development of personality and psychopathology. Preeminent researcher Mary Rothbart synthesizes current knowledge on temperament's basic dimensions, its interactions with biology, the social environment, and developmental processes, and influences on personality, behavior, and social adjustment across the lifespan. In a direct and readable style, Rothbart combines theory and research with everyday observations and clinical examples. She offers new insights on difficult children and reviews intervention programs that address temperamental factors in childhood problems. This book will be invaluable to developmental psychologists, personality social psychologists, child clinical psychologists, and other mental health practitioners. It will also serve as a text in graduate level courses.
