- **Age:** 10
- **Grade:** Third, end of year
- **Gender:** Female
- **Area(s) of Exceptionality:** Learning disability and attention deficit hyperactive disorder (AAHD) (combined type)

1-1 Brief Description of Child and Family

Tiffany is a third-grade student at Warren Elementary School. Tiffany is an engaging child, who is personable and loves to talk. Nevertheless, her teachers and parents are concerned about her academic progress and wonder if she is ready for fourth grade. Tiffany has begun saying that she is "stupid," "can't learn anything," and that she hates school. Her parents, Michael and Patty, are worried. They have watched their once happy little girl who loved school change to a child who begs to stay home, has stomachaches during homework, and cries herself to sleep.

Tiffany is the youngest of three children. Her older sister is an honor roll student in high school. Her older brother, who has been diagnosed with learning disabilities that primarily impact language, is in middle school, where he is doing fairly well with some support for reading. Her father, Michael, is a manager for a large hardware and building supply store, and her mother, Patty, is a secretary at the county hospital. Both parents have some post-secondary education, but neither graduated from college. Tiffany was diagnosed with a learning disability in first grade and with attention deficit hyperactive disorder (combined type) in second grade, when her teachers noticed that she often seemed to disengage mentally during tasks she found challenging.

Tiffany has received daily resource room special education support for reading, and she is taking

Case Studies for Inclusion in Education Keith Storey, 2020-07-20 This book responds to a critical need for highly qualified personnel who will become exemplary professionals in inclusive education for students with disabilities because of their advanced knowledge skills and experiences in working with students with varying disabilities It will serve as a guide for teachers teachers in training and other service providers to engage in understanding and analyzing inclusion to help prepare them for how they can best teach and serve all students including those with a disability These case studies provide a guide for analyzing real life situations and will help readers to become a better teacher and service provider Too often the inclusion planning process only looks at a few areas and not a comprehensive analysis of skill and support needs This book provides the framework for analyzing these areas It is written in a non technical style and provides case study examples and guides for assisting readers in analyzing and understanding appropriate supports and interventions for inclusion Readers will appreciate the provision of a system for teachers teachers in training and others school psychologists behavior specialists classroom assistants etc to analyze inclusion and to understand how supports and instruction can be used to best educate students with disabilities The exploration of inclusion needs to be situated within a context which in this book is the use of the case studies for understanding and analysis An advantage of this book is that universities school districts and organizations preparing teachers can easily use it in courses or trainings that address inclusive education as the case studies comprehensively cover methodology and issues that represent best practices and evidence based methods in this area Those who are already teachers or other support providers will find the case studies to be practical and helpful for increasing their skills in applied settings

Special Education Law Case Studies David F. Bateman, Jenifer Cline, 2019-01-12 Tremendous changes have occurred over the past decade in the provision of services to students with disabilities Federal mandates continue to define requirements for a free appropriate public education FAPE in the least restrictive environment Additionally there has been an increase in the number of lawsuits filed against school districts regarding the provision of educational services for students with disabilities Case studies are a helpful way to understand these difficult issues The case studies presented here are actual students eligible for special education and related services The case studies are represented not to tell districts and parents that this is the only way questions about special education law can be answered but to provide likely answers along with commentary for analysis The cases were developed to help new and experienced special education leaders and supervisors survive the pressures of working with students with disabilities while working to provide appropriate services and prevent litigation

Encyclopedia of Case Study Research Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2009-10-21 Case study research has a long history within the natural sciences social sciences and humanities dating back to the early 1920 s At first it was a useful way for researchers to make valid inferences from events outside the laboratory in ways consistent with the rigorous practices of investigation inside the lab Over time case study approaches garnered interest in multiple disciplines as scholars studied phenomena in context Despite widespread use case study research has received little attention among the literature on research strategies The Encyclopedia of Case Study Research provides a compendium on the important methodological issues in conducting case study research and explores both the strengths and weaknesses of different paradigmatic approaches These two volumes focus on the distinctive characteristics of case study research and its place within and alongside other research methodologies

Key Features

- Presents a definition of case study research that can be used in different fields of study
- Describes case study as a research strategy rather than as a single tool for decision making and inquiry
- Guides rather than dictates readers understanding and applications of case study research
- Includes a critical summary in each entry which raises additional matters for reflection
- Makes case study relevant to researchers at various stages of their careers across philosophic divides and throughout diverse disciplines

Torres,Catherine R. Barber,2017-06-12 Special education law and practice have undergone profound transformation over the past 50 years Students with disabilities are now more likely to receive a free and appropriate education in the least restrictive environment possible however the ideals of the law have not always been manifested in effective practice Although special education services are vastly better today than they were in the early years of public education current policies and practices continue to result in the under education of many children with disabilities This book illustrates key failures of the system within the context of real children s experiences The case study approach gives voice to the students families and educators who have been let down by the special education process The goal is to shed light on the flaws and injustices of the status quo After identifying these problems the authors offer sound solutions Section 1 is devoted to issues surrounding identification of students with learning disabilities These topics include occurrence of inconsistencies in assessment and diagnoses understanding the struggles of the slow learner and the interference of behavioral challenges with students educational performance Section 2 addresses problems within the evaluation process that negatively influence diagnoses Discussions include disproportionate representation of students from low socioeconomic backgrounds as well as students of color and bilingual students Section 3 highlights significant concerns with service provision within the special education realm The narratives throughout the book present stories of children on the receiving end of a severely fractured special education system Recommendations focus on solving specific problems such as inconsistent identification processes and categories disproportionate representation ill conceived IEPs ineffective specially designed instruction and poorly implemented RTI programs The book s methodological approach affirms that there is much room for reform within both the special education system and the public education system as a whole This book will be an excellent resource for graduate level students practitioners and teachers in the fields of special education disability studies early intervention school

psychology and child and family services Additionally it will be of interest to social workers counselors and researchers
