William R. Webster, Eric Töpfer, Francisco Reto Klauser, Charles D. Raab, 2012 Video surveillance systems often referred to as closed circuit television CCTV have become a defining feature of modern life Their widespread use by many different agencies for a range of purposes is no longer surprising and is generally accepted in most European countries Although broad academic interest accompanied the proliferation of CCTV in the mid to late 1990s issues of governance and public policy are rarely explicitly addressed by social scientists and many of the concerns raised during the debate which followed the video surveillance revolution remain unanswered and are as pertinent today as they were then This book brings into focus the ways in which the implementation of cameras and systems and their operation and technical features are the product of decisions and policies made in a variety of contexts and by a variety of authorities and interested parties It examines the cultural context in which cameras are deployed and explores how this context can shape their diffusion and use The book places particular emphasis on studies of video surveillance in different national institutional cultural and linguistic settings The book is divided into two parts The chapters in part one are theoretically informed contributions from a variety of academic disciplines Part two consists of five case studies which are less theoretical and more descriptive but which offer important insights for the governance of video surveillance cameras Providing a fascinating study of the wider implications of video surveillance and its pervasive use this book will be of interest to all those interested in how this phenomenon affects all of us in society today *Safeguarding and Child Protection 5th Edition: Linking Theory and Practice* Jennie Lindon, Janet Webb, 2016-06-27 Ensure your students link theory with practice with this updated version of the authoritative and accessible series from Jennie Lindon Linking Theory and Practice has helped thousands of students make the right connections between their lectures and the real settings that they go on to work in This latest edition of Safeguarding and Child Protection provides a useful overview of the subject in straightforward language that allows novices to access the more complicated concepts Jennie Lindon s trademark approach provides a trusted and authoritative voice for a wide range of courses including undergraduate and foundation degrees in Early Years and Early Childhood PGCEs and BEd programmes Includes

contemporary Chinese political economy Robert W McChesney author of Corporate Media and the Threat to Democracy As China navigates the murky waters of a third way with liberal economic policies under a strict political regime the surprising battleground for China's future emerges in the country's highest rated television network China Central Television or CCTV With 16 internationally broadcast channels and over 1.2 billion viewers CCTV is a powerhouse in conveying Chinese news and entertainment The hybrid nature of the network has also transformed it into an unexpected site of discourse in a country that has little official space for negotiation While CCTV programming is state sponsored and censored the popularity and profit of the station are determined by the people And as the Chinese Communist Party seeks to exert its own voice on domestic and international affairs the prospect of finding an amenable audience becomes increasingly paramount Through a series of interviews with a fascinating cast of power players including a director of a special topic program that incited the 1989 student movement current and past presidents of CCTV and producers at the frontline of the network's rapidly evolving role in Chinese culture celebrated media analyst Ying Zhu unlocks a doorway to political power that has long been shrouded in mystery An indispensable guide to the Chinese media landscape The New Inquiry Up until Two Billion Eyes the view of Chinese media has often been limited Ying Zhu expands the periphery of our vision Los Angeles Review of Books The Glaucoma Book Paul N. Avakov, 2012-12 The book is organized in Folklore Units Each Folklore Unit has Context and may have one or more Metacontexts with citations of works of great philosophers or writers hence the title of the book is Metafolklore The book covers the life of immigrants from the USSR in the U.S remembers life in Russia and gradually concentrates on the modus operandi of the KGB FBI CIA NYPD NSA ECHELON Foreign Intelligence Surveillance Court AI and ISI It covers frontiers of legal theory of surveillance What distinguishes this book is the intensely personal account of the events and issues ,
