

Conceptual Model

- ◆ The third kind of model is a conceptual model.
- ◆ Some conceptual models are systems of ideas.
- ◆ Others are based on making comparisons with familiar things to help illustrate or explain an idea.
 - One example of a conceptual model is the system that scientists use to classify living things. By using a system of ideas, scientists can group living things by what they have in common. This type of model allows scientists to better understand each group of living things.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
