Creations Of Fire Chemistrys Lively History From Alchemy To The Atomic Age:

Creations Of Fire Cathy Cobb, Harold Goldwhite, 2001-12-20 A provocative history of the people behind the greatest discoveries in chemistry **Creations of Fire** Cathy Cobb, Harold Goldwhite, 2013-07-30 the history of chemistry is a story of human endeavor and as erratic as human nature itself Progress has been made in fits and starts and it has come from all parts of the globe Because the scope of this history is considerable some 100 000 years it is necessary to impose some order and we have organized the text around three discernible albeit gross divisions of time Part 1 Chaps 1 7 covers 100 000 BCE Before Common Era to the late 1700s and presents the background of the Chemical Revolution Part 2 Chaps 8 14 covers the late 1700s to World War I and presents the Chemical Revolution and its consequences Part 3 Chaps 15 20 covers World War I to 1950 and presents the Quantum Revolution and its consequences and hints at revolutions to come There have always been two tributaries to the chemical stream experiment and theory But systematic experimental methods were not routinely employed until the 1600s and quantitative theories did not evolve until the 1700s and it can be argued that modern chemistry as a science did not begin until the Chemical Revolution in the 1700s xi xii PREFACE We argue however that the first experiments were performed by artisans and the first theories proposed by philosophers and that a revolution can be understood only in terms of what is being revolted against "Vernetztes System"?
