Constitutionalism and the Economy in Africa Charles M. Fombad, Nico Steytler, 2022-11-14 Despite expectations that the celebrated second wave of constitutional democracy in the 1990s would facilitate economic development Africa remains the continent with the highest level of poverty in the world The fight against poverty hinges on a vibrant economy that creates jobs and income by generating enough revenue to enable the state to take pro development measures However instead of the economic benefits that were supposed to accrue from the constitutional reforms of the last three decades including entrenching a market economy African economies remain weak a situation that has been aggravated by the COVID 19 pandemic By focusing on the relationship between constitutionalism and economic growth in Africa this volume addresses five questions 1 In the constitutional reforms of the 1990s and thereafter did constitutions also reflect the shift towards a market economy and if so in what manner 2 Given that agriculture and extractive industries are the main sources of state revenue in many African economies how are matters of land and other natural resources dealt with constitutionally 3 Where the market economy is captured in a constitution what is the state's relationship to that economy interventionist or laissez faire or somewhere in between Have constitutions also established a social state that provides its citizens with the basic elements of a dignified life 4 In the process of constitution making and implementation concerning the economy what impact has globalization had on constitutionalism and economic growth in Africa 5 Finally how has the relationship between constitutionalism and economic growth played out in practice Is there a symbiotic relationship Has constitutionalism led or may do so to greater economic prosperity Constitutionalism and the Economy in Africa offers a range of comprehensive

arguments and case studies that will be of interest and use to academics post graduate students judges lawyers economists and policy makers involved in the economic role of the State the impact of globalization and the constitutional foundations for land and natural resources exploitation **Public Finance and Economic Growth in Developing Countries** Stephen Peterson, 2015-04-24 Public finance is crucial to a country's economic growth yet successful reform of public finances has been rare Ethiopia is an example of a country that undertook comprehensive reform of its core financial systems independent of the IMF and the World Bank and successfully transformed itself into one of the fastest growing economies in Africa With Ethiopia's twelve year reform as its guiding case study this book presents new analytical frameworks to help governments develop better financial reforms It shows in detail how four core financial systems budgeting accounting planning and financial information systems can be reformed One of the principal findings presented is that governments must establish basic public financial administration before moving to more sophisticated public financial management Other key findings include the identification of four strategies of reform recognize improve change and sustain the centrality of ongoing learning to the process of reform and the importance of government ownership of reform This book will be of interest to researchers and policymakers concerned with public finance developmental economics and African studies News from Ethiopia , 1992

Enforcement of Human Rights in Ethiopia Yohannes Eneyew Ayalew , Wondemagegen Tadesse Goshu, 2023-05-25 Enforcement has not been the most practiced business in the field of human rights in Ethiopia The absence of effective enforcement can be attributed to various factors including the absence of a normative framework insufficient political commitment inadequate institutional capacity and resources and limited awareness Despite recent legal reform initiatives purportedly driven by human rights demands it remains uncertain whether enforcement has undergone any significant changes Effective enforcement of human rights necessitates the existence of robust multi layered institutions at the national sub regional regional and international levels However in Ethiopia concerns have been raised about the capability of numerous normative instruments and mechanisms of human rights This volume comprises a collection of papers presented at a hybrid conference held at the Hilton Hotel Addis in April 2022 The conference organized by the School of Law of Addis Ababa University in collaboration with Friedrich Ebert Stiftung Ethiopia centered around the theme Enforcement of Human Rights in Ethiopia Old and New Challenges Its primary objective was to identify and analyze both old and new challenges in human rights enforcement in Ethiopia and propose strategies to overcome them The editors of this volume intend for it to address scholarly gaps in the implementation and enforcement of human rights in Ethiopia Among the notable findings from the chapters included in this volume is a significant disparity between recently reformed laws passed by the parliament and their execution by the executive body This disconnect demonstrates a failure to prioritize and enforce human rights in the country As such the volume suggests that the Ethiopian government must take the business of human rights enforcement seriously The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10

From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia
