Democracy Human Rights And Governance Assessment Of Indonesia:

Democracy, Human Rights, and Governance Assessment of Indonesia U.s. Agency for International Development, 2013-09 The purpose of this report is to summarize the findings of a Democracy Human Rights and Governance DRG Assessment carried out in Indonesia from October 1 19 2012 The main objectives of the assessment are to identify the key problems of democracy human rights and governance in the country analyze the structure of opportunities and constraints different actors and institutions face in advancing democratic reform and provide a set of programmatic recommendations for the United States Agency for International Development s Indonesia Mission USAID Indonesia as the Agency prepares its next five year strategy Recommendations are based on a realistic evaluation of the most important opportunities for reform in the country and an assessment of the types of interventions that are within USAID s manageable interests and have the potential for achieving the greatest impact That will increase the effectiveness and sustainability of DRG programs in Indonesia *Development Aid Confronts Politics* Thomas Carothers, Diane de Gramont, 2013-04-01 A new lens on development is changing the world of international aid The overdue recognition that development in all sectors is an inherently political process is driving aid providers to try to learn how to think and act politically Major donors are pursuing explicitly political goals alongside their traditional socioeconomic aims and introducing more politically informed methods throughout their work Yet these changes face an array of external and internal obstacles from heightened sensitivity on the part of many aid receiving governments about foreign political interventionism to inflexible aid delivery mechanisms and entrenched technocratic preferences within many aid organizations This pathbreaking book assesses the progress and pitfalls of the attempted politics revolution in development aid and charts a constructive way forward Contents Introduction 1 The New Politics Agenda The Original Framework 1960s 1980s 2 A Political Roots Breaking the Political Taboo 1990s 2000s 3 The Door Opens to Politics 4 Advancing Political Goals 5 Toward Politically Informed Methods The Way Forward 6 Politically Smart Development Aid 7 The Unresolved Debate on Political Goals 8 The Integration Frontier Conclusion 9 The Long Road to Politics Japan's International Democracy Assistance as Soft Power Maiko Ichihara, 2017-08-15 Japan has increasingly emphasized democracy assistance since the mid 2000s such that it now constitutes a major part of Japan s foreign policy This approach is an ostensible departure from the country s traditional foreign policy stance which tries to avoid bringing values to the forefront of foreign policies This book intends to answer the questions of why Japan has started emphasizing democracy assistance and why it has relegated itself to a minor role in democracy assistance nevertheless It argues that Japan s emphasis on democracy assistance reveals its intention to increase its political influence with regards to China based on democratic values and its usage of the term democracy assistance is a performative speech act to orchestrate a comprehensive approach for international democracy support Shedding light on the novel aspect of Japanese policy this book contributes to the understanding of Japanese foreign policy and democracy promotion Providing the analysis that state s

speech act could cause to create foreign policies that counter what is predicted by structural realism this analysis makes contributions to neoclassical realism which explains states foreign policy choices within the constraints of international structure *Indonesia Electoral, Political Parties Laws and Regulations Handbook - Strategic Information, Regulations, Procedures* IBP, Inc.,2015-06 *Indonesia Electoral Political Parties Laws and Regulations Handbook Strategic Information Regulations Procedures* *Indonesia Investment and Business Guide Volume 1 Strategic and Practical Information* IBP USA,

Indonesia's Regional and Global Engagement Moch Faisal Karim,2023-06-16 Karim examines the changes and continuity of Indonesia s foreign policy in the post authoritarian era under presidents Susilo Bambang Yudhoyono and Joko Widodo Indonesia conceptualised and aimed to adopt four principle roles after 2004 being a voice for developing countries being a regional leader being an advocate for democratic and human rights and being a bridge builder These roles however were by no means stable and were constantly being negotiated and contested Karim analyses the contested nature of Indonesian foreign policy and the limits this places on consistency in enacting these roles He highlights two drivers for such limitations conflicting role conceptions and state fragmentation He develops this argument based on four case studies of Indonesia s engagement in human rights governance and trade governance at both regional and global levels Essential reading for students and scholars of Indonesia s foreign policy that will also be of substantial value to those studying policy in Southeast Asia more broadly

Woltjer,2015-09-11 Indonesia over the past two decades has embarked on a process of decentralization as part of a broader process of democratization which followed earlier periods of centralized governance and authoritarian rule across the archipelago The purpose of this book is to begin to explore the connections between governance and sustainable society in a wide variety of policy fields in Indonesia and how reforming governance structures may contribute to societal benefits and the creation of a long term sustainable society This book bridges important theoretical debates related to governance and sustainable society and provides empirical research from Indonesia in important policy areas related to this debate By placing research in different policy areas in a single volume the link to the broader concepts of governance decentralization and societal outcomes is strengthened The book builds on the recent interest that has focused on Indonesia and the continued development of democracy in the country The chapters in the book show a rich variety of decentralized governance arrangements and capacity building at the local level in particular Central standards for example for social sustainability anti corruption arrangements or for dealing with direct foreign investment combined with local innovation for example for municipal coordination of primary health care or metropolitan transport are key to Indonesia as a country in a

continuing process of transformation We identify three key trends in the on going process of decentralization and governance in Indonesia First we find that formal governance the relation between the national and local government is characterized by a system of variable geometry multi level governance depending on the policy area The challenge ahead is strengthening accountability mechanisms to assure national standards while preserving and encouraging local innovation Secondly informal governance mechanisms are evolving to move from hierarchical to network forms of governance Here the challenge is to insure democratic input by citizens and civil society organizations Finally we identify a trend toward shared value creation and sustainable cooperation Indonesia is beginning to move from a rather singular policy focus on economic growth to a more complex and developing notion of policymaking for inclusive growth and the creation of a sustainable society for present and future generations Here the challenge is sound implementation and to increase the effectiveness of governance mechanisms There is also a noted diffusion of goals to focus beyond the Jakarta metropolitan area to smaller regional cities as urbanization continues and rural areas are changing This book will be of interest for use in advanced undergraduate and graduate courses related to Southeast Asia in the fields of international relations political science public administration economics law sociology education public health and the spatial sciences It will also be of interest to policymakers and government officials at the national and local level in Southeast Asia and middle income developing countries officials and policymakers in institutions of regional governance such as the Association of Southeast Asian Nations ASEAN and of global governance such as the United Nations and World Bank It will also be of interest to civil society organizations and other actors focused on policy development and economic development health education the environment sustainable transport etc The book will also be of interest to business people interested in economic and governance issues such as the management and governance of in bound foreign investment inclusive growth and corporate governance Finally the book should be of interest to citizens in advanced middle income and developing countries motivated to learn more about the links between governance and the creation of a sustainable society for current and future generations

Human Rights Culture in Indonesia Max Regus, 2021-06-08 Drawing on human rights discourse and a study of the difficulties faced by religious minority groups using the Ahmadiyya minority group as a case study this book presents three interconnected challenges to human rights culture in Indonesia First it presents a normative challenge describing the gap between philosophical and normative principles of human rights on one side and the overall problems and critical issues of human rights at national and local levels on the other Second it considers the political problems in developing and strengthening human rights culture The political challenge addresses the ability or inability of the state to guarantee the rights of certain individuals and minority groups Third it examines the sociological challenge of majority minority group relationships in human rights discourse and practices This book describes the background of human rights in Indonesia and reviews the previous literature on the issue It also presents a comprehensive review of the discourses about human rights and political changes in contemporary Indonesia

The analysis focuses on how human rights challenges affect the situation of religious minorities looking in particular at the Ahmadiyya as a minority group that experiences human rights violations such as discrimination persecution and violence The study fills out its treatment of these issues by examining the involvement of actors both from the state and society addressing also the politics of human rights protection
