Political Mobilizations and Democratization in Sub-Saharan Africa Wolfgang Stuppert, 2019-06-14 This book explores why democratization processes in Sub-Saharan Africa have made so little progress despite more than two decades of multi party politics on the subcontinent By applying multiple linear regression analyses to a new data set on multi party elections in Sub-Saharan Africa the study investigates the relationship between political mobilizations and electoral competitiveness It finds that the more societal groups engage in political mobilizations such as protests and strikes the more competitive elections become Based on these results the author argues for a change in the policies of international democracy assistance programs The study's findings suggest that efforts to promote democracy would likely be more successful if international donors focused their support on organizations that have active constituencies and are willing to use their mobilization capacity to address ruling elites with political or socio-economic grievances

Dictators and Democracy in African Development A. Carl LeVan, 2015 This book argues that the structure of the policy making process in Nigeria explains variations in government performance better than other commonly cited factors

Democratization and Authoritarianism in the Arab World Larry Diamond, Marc F. Plattner, 2014-04-01 Three years after the first mass protests of the Arab Spring senior scholars weigh in on how democracy is faring Beginning in December 2010 a series of uprisings swept the Arab world toppling four longtime leaders and creating an apparent political opening in a region long impervious to the third wave of democratization Despite the initial euphoria the legacies of authoritarianism polarized societies politicized militaries state centric economies and pervasive clientelism

have proven stubborn obstacles to the fashioning of new political and social contracts. Meanwhile the strong electoral performance of political Islamists and the ensuing backlash in Egypt have rekindled arguments about the compatibility of democracy and political Islam. Even though progress toward democracy has been halting at best, the region's political environment today bears little resemblance to what it was before the uprisings. In *Democratization and Authoritarianism in the Arab World*, leading scholars address the questions posed by this period of historic change in the Middle East and North Africa. This volume includes chapters examining several broad themes: the region's shifting political culture, the relationship between democracy and political Islam, the legacy of authoritarian ruling arrangements, the strengths and vulnerabilities of remaining autocracies, and the lessons learned from transitions to democracy in other parts of the world. It also features chapters analyzing the political development of individual countries: Algeria, Bahrain, Egypt, Jordan, Libya, Morocco, Saudi Arabia, Syria, Tunisia, Yemen, and the monarchies of the Gulf. Contributors: Hicham Ben Abdallah, El Alaoui, April Longley, Alley Zoltan, Barany, Ahmed Benchemsi, Mieczysław P. Boduszyński, Nathan J. Brown, Jason Brownlee, Daniel Brumberg, John M. Carey, Michele Dunne, Abdou Filali, Ansary, Hillel Fradkin, F. Gregory Gause III, Husain Haqqani, Steven Heydemann, Philip N. Howard, Muzammil M. Hussain, Amaney Jamal, Stéphane Lacroix, Juan J. Linz, Tarek Masoud, Marc F. Plattner, Tarek Radwan, Hamadi Redissi, Andrew Reynolds, Michael Robbins, Olivier Roy, Peter J. Schraeder, Alfred Stepan, Mark Tessler, Frédéric Volpi, Lucan Way, Frederic Wehrey, Sean L. Yom.

Media Reforms and Democratization in Emerging Democracies of Sub-Saharan Africa Ufuoma Akpojivi, 2018-04-03. This book examines the media reform processes and re-democratization projects of Ghana and Nigeria's emerging democracies. It evaluates and critiques these reform processes, arguing that because of dependency approaches resulting from the transplanting of policy framework from the West into these emerging democracies, the policy goals and objectives of the reforms have not been achieved. Consequently, the inherent socio-cultural, economic, and political factors coupled with the historical antecedents of these countries have also affected the reform process. Drawing from policy documents, analyses, and interviews, Ufuoma Akpojivi argues that the lack of citizens' active participation in policy processes has led to neo-liberalization and the continued universalization of Western ideologies such as democracy, media freedom, and independence. Akpojivi posits that the recognition of socio-cultural, political, and economic factors inherent to these emerging democracies, coupled with the communal participation of citizens, will facilitate true media reform processes and development of these countries.

McMahon, 2016-02-05 Africa is changing and it is easy to overlook how decentralization democratization and new forms of illiberalism have transformed federalism political parties and local politics Chapters on Kenya Nigeria Ethiopia and South Africa help fill an important gap in comparative institutional research about state and local politics in Africa

Africa's Big Men Kenneth Kalu, Olajumoke Yacob-Haliso, Toyin Falola, 2018-03-20 This book spotlights analyzes and explains varying forms and patterns of state society relations on the African continent taking as point of departure the complexities created by the emergence proliferation and complicated interactions of so called big men across Africa's fifty four states The contributors interrogate the evolution of Africa's big men the role of the big men in Africa's political and economic development and the relationship between the state the big men and the citizens Throughout the chapters the contributors engage with a number of questions from different disciplinary and methodological orientations How did these states evolve to exhibit various deformities in their composition functioning and in their relations with the societies that they govern What roles did Atlantic and other slavery and European colonialism play in creating states that are unable to display the right and good relationships with citizens in civil society Why did these forms of predatory state society relations continue to thrive in Africa after the end of Atlantic slave trade and subsequent colonialism Why did the emerging African leaders at independence fail to effectively dismantle the structures of exploitation and expropriation that were the defining features of slavery and colonialism Who are Africa's big men and what are their trajectories This book is essential reading for all students and scholars of African politics public policy and administration political economy and democratisation

Failed States and Institutional Decay Natasha M. Ezrow, Erica Frantz, 2013-07-18 What do we mean by failed states and why is this concept important to study The failed states literature is important because it aims to understand how state institutions or lack thereof impact conflict crime coups terrorism and economic performance In spite of this objective the failed state literature has not focused enough on how institutions operate in the developing world This book unpacks the state by examining the administrative security judicial and political institutions separately By doing so the book offers a more comprehensive and clear picture of how the state functions or does not function in the developing world merging the failed state and institutionalist literatures Rather than merely describing states in crisis this book explains how and why different types of institutions deteriorate Moreover the book illustrates the impact that institutional decay has on political instability and poverty using examples not only from Africa but from all around the world
