## **Construction Jobsite Management 2e2nd Second Edition:**

**Construction Jobsite Management** William R. Mincks, Hal Johnston, 2016-01-01 The newly updated Fourth Edition of CONSTRUCTION JOBSITE MANAGEMENT examines all facets of construction project management from the contractor's point of view. The responsibilities of project managers, construction superintendents, and construction engineers are covered in depth from configuring a project team through closing out a project. The text maintains a strong focus on jobsite personnel activities, outlining proven procedures and offering helpful techniques to manage projects effectively from start to finish. Clear, concise language and accurate relevant detail make this book an essential introduction to the real world of construction jobsite management. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Total Construction Project Management, Second Edition** George J. Ritz, Sidney M. Levy, 2013-02-22 The most comprehensive up-to-date construction project management system. Fully revised for the latest technologies and standards. Total Construction Project Management Second Edition provides a proven framework for completing construction jobs as specified on schedule and within budget. You'll learn how to plan, organize, and control each stage of a project from initiation to close out. This updated edition integrates important new trends such as technological interoperability, seamless electronic information exchange, Building Information Modeling (BIM), and sustainable building practices. Real-world case studies and customizable sample construction documents are included in this practical guide. Inside, you'll find field-tested methods for preparing project bids and proposals, negotiating contracts, project planning and initiation, scheduling construction, estimating, budgeting, and cost control, project organization and control, construction project execution, integrating the latest technologies including BIM and electronic information exchange, green building and sustainable construction, construction safety and health, project communications, managing human factors.
