- Do not use the heater to dry your laundry. Never obstruct the intake and outlet grilles (danger of overheating).
- The heater must be positioned at least 50 cm from furniture or other objects.
- Do not use the appliance facing walls, furniture, curtains etc.
- If the power cable is damaged, it must be replaced by the manufacturer, an authorised service centre or a qualified electrician in order to eliminate all risk.
- Do not cover the appliance when in operation as this could cause a fire risk.
- Do not use the appliance in rooms which have a floor area smaller than 4m² as this may lead to overheating.
- The use of an extension lead is not recommended, as overheating of the extension lead may occur during the operation of the heater.
- As with any electrical appliance, whilst the instructions aim to cover as many eventualities as possible, caution and common sense should be applied when operating your appliance, particularly in the vicinity of young children.
- The appliance must not be positioned directly underneath a fixed power point.

The heater is fitted with a **safety device** which will switch off the heater in case of **accidental overheating** (eg. obstruction of air intake and outlet grilles, motor turning slowly or not at all). To reset, disconnect the plug from the power for a few minutes, remove the cause of overheating then plug the appliance in again.
