Democracy And Tradition New Forum Books:

Democracy and Tradition Jeffrey Stout, 2009-02-09 Do religious arguments have a public role in the post 9 11 world Can we hold democracy together despite fractures over moral issues Are there moral limits on the struggle against terror Asking how the citizens of modern democracy can reason with one another this book carves out a controversial position between those who view religious voices as an anathema to democracy and those who believe democratic society is a moral wasteland because such voices are not heard Drawing inspiration from Whitman Dewey and Ellison Jeffrey Stout sketches the proper role of religious discourse in a democracy He discusses the fate of virtue the legacy of racism the moral issues implicated in the war on terrorism and the objectivity of ethical norms Against those who see no place for religious reasoning in the democratic arena Stout champions a space for religious voices But against increasingly vocal antiliberal thinkers he argues that modern democracy can provide a moral vision and has made possible such moral achievements as civil rights precisely because it allows a multitude of claims to be heard Stout's distinctive pragmatism reconfigures the disputed area where religious thought political theory and philosophy meet Charting a path beyond the current impasse between secular liberalism and the new traditionalism *Democracy and Tradition* asks whether we have the moral strength to continue as a democratic people as it invigorates us to retrieve our democratic virtues from very real threats to their practice

Christianity, Democracy, and the Radical Ordinary Stanley Hauerwas, Romand Coles, 2008-01-01 In *Christianity Democracy and the Radical Ordinary* theologian Stanley Hauerwas and political theorist Romand Coles reflect about possibilities and practices of radical democracy and radical ecclesia that take form in the textures of relational care for the radical ordinary They seek to shift political and theological imaginations beyond the limits of contemporary political formations such as global capitalism the mega state and empire which they argue are based upon both the denial and production of death Hauerwas and Coles call us to a revolutionary politics of wild patience that seeks transformation through attentive practices of listening relationship building and a careful tending to places common goods and diverse possibilities for flourishing Both authors translate back and forth across as well as dwell in the tensions between the languages of radical democracy and of trial cross and resurrection Engaging each other through a variety of genres from essays to letters to cowriting and dialogue Hauerwas and Coles seek to enact a politics that is evangelical in its radical receptivity across strange differences and that cultivates power in relation to vulnerability The authors argue that there is a strong relation between hope and imagination as well as between imagination and the encounter with and memory of those who have lived with receptive generosity toward the radical ordinary Hence throughout this book they think extensively in relation to specific lives and practices from Ella Baker and the early Student Nonviolent Coordinating Committee organizing efforts for beloved community and civil rights to L Arche communities founded by Jean Vanier to contemporary faith based radical democratic organizing efforts in dozens of cities by the Industrial Areas Foundation Pushing and pulling each other into new

and insightful journeys of political imagination this conversation between a radical Christian and a radical democratic trickster spurs us toward a politics that acknowledges tends to and enacts the powers of the radical ordinary

The New Measures Ted A. Smith, 2007-04-30 *The New Measures A Theological History of Democratic Practice* brings thick cultural history to contemporary debates about religion and democracy Combining histories of performance space institutions and ideas this 2007 book tells the story of the new measures that circulated in the religious revivals of the 1820s and 30s and traces the role of these practices in the development of democratic culture in the United States The book borrows resources from Walter Benjamin and Theodor Adorno to remember the new measures from an eschatological point of view That eschatological perspective holds together close empirical studies and explicitly theological hopes The book's attention to detail moves it beyond abstraction and caricature to a more materialist political theology And its eschatological hope resists narratives of progress and decline to understand American democracy as both tangled in contradiction and caught up in redemption

Solidarity and Difference David G. Horrell, 2005-09-19 This book presents a wide ranging study of Pauline ethics examining how Paul's moral discourse envisages and constructs communities in which there is a strong sense of solidarity but also legitimate difference in various aspects of ethical practice Unlike many books on New Testament ethics this work reads New Testament texts with an explicit awareness of contemporary ethical theory and attempts to assess Paul's contribution as a moral thinker in the context of modern debate The contents include a survey of the variety of approaches to understanding Pauline ethics and of the contemporary liberal communitarian debate Using a framework indebted to the social sciences as well as to contemporary ethical theory various chapters go on to examine the construction of community in Paul's letters the notions of purity boundaries and identity Paul's attempts to deal with diversity in his churches the role of imitating Christ in Paul's ethics and the ethic Paul develops for interaction with outsiders Finally the pattern of Paul's moral thinking is considered in relation to the liberal communitarian debate with explicit consideration given to the central moral norms of Pauline thought and the prospects for and problems with appropriating these in the contemporary world It is argued that while Paul's ethics raise problems which prevent their easy application today by thinking with beyond and sometimes against Paul we can find in his letters valuable resources for the pressing moral tasks that confront us

Plato's Fable Joshua Mitchell, 2009-01-10 This book is an exploration of Plato's *Republic* that bypasses arcane scholarly debates Plato's *Fable* provides refreshing insight into what in Plato's view is the central problem of life the mortal propensity to adopt defective ways of answering the question of how to live well How in light of these tendencies can humankind be saved Joshua Mitchell discusses the question in unprecedented depth by examining one of the great books of Western civilization He draws us beyond the ancients/moderns debate and beyond the notion that Plato's *Republic* is best understood as shedding light on the promise of discursive democracy Instead Mitchell argues the question that ought to preoccupy us today is neither reason nor discourse but rather imitation To what extent is man first and foremost an imitative being This Mitchell asserts is the

subtext of the great political and foreign policy debates of our times Plato's Fable is not simply a work of textual exegesis It is an attempt to move debates within political theory beyond their current location Mitchell recovers insights about the depth of the problem of mortal imitation from Plato's magnificent work and seeks to explicate the meaning of Plato's central claim that only philosophy can save us

God Gardened East Louis A. Ruprecht Jr.,2008-01-01 Working within two popular genres gardening books and biblical meditations God Gardened East offers a meditation on the first twenty five chapters of Genesis emphasizing the tropes of cultivation wandering and the east Reconceived in a post 9 11 environment Ruprecht wrestles with difficult questions about the violent legacy of monotheism and traces some of this violence back to the foundational story of Abraham and his dislocation from his homeland

The Cambridge Companion to Religious Studies Robert A. Orsi,2012 Informative and provocative this book introduces readers to debates in the contemporary study of religion and suggests future research possibilities

Speak Thus Craig R Hovey,2008-11-27 In its various forms speech is absolutely integral to the Christian mission The gospel is a message news that must be passed on if it is to be known by others Nevertheless the reality of God cannot be exhausted by Christian knowledge and Christian knowledge cannot be exhausted by our words All the while the philosophy of modernity has left Christianity an impoverished inheritance within which to think these things In *Speak Thus* Craig Hovey explores the possibilities and limits of Christian speaking At times ethical epistemological and metaphysical these essays go to the heart of what it means to be the church today In practice the Christian life often has a linguistic shape that surprisingly implicates and reveals the commitments of people like those who care for the sick or those who respond as peacemakers in the face of violence Because learning to speak one way as opposed to another is a skill that must be learned Christian speakers are also guides who bear witness to the importance of churches for passing on a felicity with Christian ways of speaking Through constructive engagements with interlocutors like Ludwig Wittgenstein George Lindbeck Jeffrey Stout Stanley Hauerwas John Howard Yoder Thomas Aquinas and the theology of Radical Orthodoxy Hovey offers a challenging vision of the church able to speak with a confidence that only comes from a deep attentiveness to its own limitations while able to speak prophetically in a world weary of words

An Imaginative Glimpse Joas Adiprasetya,2013-08-21 In contrast to the popular notion that the doctrine of the Trinity hinders Christians from engaging with the reality of religious diversity this book argues that the doctrine is the best way of constructing contemporary theology of religions *An Imaginative Glimpse* reexamines three prominent Trinitarian theologians of religions Raimundo Panikkar Gavin D Costa and S Mark Heim and proposes a fresh and creative model by bringing the classical idea of perichoresis to its present day multifaith situation Opening a new alternative in both Trinitarian theology and theology of religions Adiprasetya's approach adds a distinctive contribution to the ongoing and challenging discussion in both fields By using perichoresis imaginatively as a multidimensional category for multiple religious participations within the Trinity Adiprasetya argues that the model is able to respect all religions on their own terms while at the same time being faithful to

the Christian standpoint **The Polity of Christ** Ulrik Nissen, 2020-04-16 Ulrik Nissen addresses the difficulty that contemporary theology faces in trying to find a way to maintain both all the shared goods we cherish as political beings and the call for Christians to be a particular people in the world and bear witness to Christ Nissen stresses that Dietrich Bonhoeffer's Christological ethics allows for a polemical unity between the reality of the world and the reality of God reconciled in the reality of Christ Based on a series of case studies that provide a point of departure for a robust reshaping of Christian humanism and responsibility Nissen reads Bonhoeffer's ethics in the light of both his Lutheran heritage and contemporary challenges highlighting the importance of his thought for political theology By demonstrating the significant influence of Lutheran and Chalcedonian Christology in contemporary ethics Nissen provides a robust argument for a love of the common reality we share as human beings and a call for Christians to bear witness to Christ in the public world
