Democracy States And The Struggle For Global Justice Paperback

G. Cheng

Democracy States And The Struggle For Global Justice Paperback:

Democracy, States, and the Struggle for Global Justice Heather Gautney, 2009 Democracy States and the Struggle for Social Justice draws on the fields of geography political theory and cultural studies to analyze experiments with novel forms of democracy highlighting the critical issue of the changing nature of the state and citizenship in the contemporary political landscape as they are buffeted by countervailing forces of corporate globalization and participatory politics Using interesting case studies the book explores these 3 main themes the meaning of radical democracy in light of recent developments in democratic theory new spatial arrangements or scales of democracy from local to global from streets protests to the development of transnational networks the character and role of states in the development of new forms of democracy The book asks and answers are participatory models of democracy viable alternatives in their own right or are they best understood as supplemental to traditional representative democracy What are the conditions that give rise to the development of such models and are they equally effective at every scale i e do they only realize their radical potential in particular local places A useful text in a broad range of advanced undergraduate courses including social movements political sociology or geography political philosophy Cosmopolitan Justice and its Discontents Cecilia Bailliet, Katja Franko Aas, 2011-04-01 Cosmopolitan Justice and its Discontents pursues a reflection upon the institutional orders designed to ensure respect for the rule of law human rights and social justice The majority of literature on cosmopolitanism tends to be oriented in sociology political science or philosophy and is largely positive This book aims to fill the lacuna with respect to critical and legal perspectives in this field In particular it highlights the importance of international economic law and its institutions when evaluating the evolution of cosmopolitan norms In addition it provides critical and multidisciplinary perspectives on Cosmopolitan Justice and Sovereignty Institutions Civil Society and Accountability and Social Exclusion Migration and Global Markets This book will be of considerable interest to academics and students concerned with international public and private law international criminal law international economic law human rights migration criminology political science and philosophy **The Golden Book** Charles Mwalimu, 2010 v 1 Dynamic jurisprudential thought **Ecosovereignty** Omar Dahbour, 2024-12-23 In this book Omar Dahbour develops the idea of ecosystem sovereignty calling for a reinterpretation of some essential concepts in political philosophy including territoriality self determination peoplehood and sovereignty in order to make the case for peoples rights to protect and maintain their natural environments In doing so he theorizes current and historical struggles against resource extractions and land grabs especially by food sovereignty and indigenous rights movements The basic idea of ecosovereignty is that peoples living in relation to particular ecosystems have a collective right to ultimate authority over those systems and the resources they contain provided they manage them sustainably Dahbour argues that this authority has a legitimacy that overrides that of larger states at least with regard to matters of environmental management Ecosovereignty claims may strengthen challenges by

peoples to states and corporations seeking to control and transform lands and waters for development against the wishes of their inhabitants Dahbour hopes the idea will provide a powerful tool for halting extractivism and ecocide along with the extreme violence that these processes use against farming indigenous peoples and nature Connecting political and environmental philosophy in an innovative way Ecosovereignty A Political Principle for the Environmental Crisis will keep scholars and students informed about an increasingly important topic

Class, Inequality and Community Development

Shaw, Mae, Mayo, Marjorie, 2016-09-06 With inequality continuing to be an incredibly salient political and social issue this book on the part it plays in community development could not be more timely Arguing strenuously that class analysis should be central to any discussion of the potential benefits of community development because otherwise development can simply mask the underlying causes of inequality the book brings together contributors from a wide range of backgrounds to explore the ways that an understanding of class can offer a new path in the face of increasing social polarization

Engaging

Social Justice David Fasenfest, 2009 The global economic collapse of 2008 has brought into sharp relief the penetration of global capitalism and its impact on working people both in the industrial core and in developing nations In response social movements challenging the World Trade Organization and annual gathering of progressive groups and NGOs at the World Social Forums have embarked on the goal of creating an alternative to the neo liberal policies that have immiserated generations The articles in this book address the need for a progressive pedagogy highlight the organizational forms of resistance to capitalism and explore new forms of struggles against capitalist practices by people throughout the world Contributors include Emily Achtenberg Melanie E L Bush Deborah L Little Victoria Carty Margaret Cerullo Chris Chase Dunn Victor Figueroa Matt Kaneshiro Laura Collin Ximena de la Barra Richard Dello Buono Heather Gautney Arseniy Gutnik Kristen Hopewell Lauren Langman Marie Kennedy Chris Tilly Fernando Leiva

Globalization

JoAnn Chirico, 2013-08-01 Globalization Prospects and Problems by JoAnn Chirico provides a comprehensive and enlightening overview of globalization issues and topics Emphasizing the theory and methods that social scientists employ to study globalization the text reveals how macro globalization processes impact individual lives from the spread of scientific discourse to which jobs are more or less likely to be offshored The author presents a clear image of the big globalization picture by skillfully exploring piece by piece a myriad of globalization topics debates theories and empirical data Compelling chapters on theory global civil society democracy cities religion institutions sports education and health care along with three chapters on global challenges help readers develop a broad understanding of key topics and issues Throughout the text the author encourages readers to relate their personal experiences to globalization processes allowing for a more meaningful and relevant learning experience

Nationalism and Human Rights

G. Cheng, 2012-02-14 By critically addressing the tension between nationalism and human rights that is presumed in much of the existing literature the essays in this volume confront the question of how we should construe human rights as a normative challenge to the excesses of modernity particularly those associated with the

modern nation state or as an adjunct of globalization with its attendant goal of constructing a universal civilization based on neoliberal economic principles and individual liberty

Migrant Rights at Work Laurie Berg, 2015-06-26 Public debates about the terms of membership and inclusion have intensified as developed economies increasingly rely on temporary migrant labour. While most agree that temporary migrant workers are entitled to the general protection of employment laws, temporary migrants have by definition restricted rights to residence, full social protections, and often to occupational and geographic mobility. This book raises important ethical questions about the differential treatment of temporary and unauthorised migrant workers and permanent residents and where the line should be drawn between exploitation and legitimate employment. Taking the regulatory reforms of Australia as a key case study, Laurie Berg explores how the influence of immigration law extends beyond its functions in regulating admission to and exclusion from a country. Berg examines the ways in which immigration law and enforcement reconfigure the relationships between migrant workers and employers, producing uncertain and coercive working conditions. In presenting an analytical approach to issues of temporary labour migration, the book develops a unique theoretical framework contending that the concept of precariousness is a more fruitful way than equality or vulnerability to evaluate and address issues of temporary migrant labour. The book will be of great interest to scholars and practitioners of immigration law and employment law and policy.

Transnational Activism and National Movements in Latin America Eduardo Silva, 2013-08-21 During the 1990s, as widespread perception spread of declining state sovereignty, activists and social movement organizations began to form transnational networks and coalitions to pressure both intergovernmental organizations and national governments on a variety of issues. Research has focused on the formation of these transnational networks, campaigns and coalitions, their objectives, strategies and tactics, and their impact. Yet the issue of how participation in transnational networks influences national level mobilization has been little analyzed. What effects has the experience of social movement organizations at the transnational scale had for the development at the national scale? This volume addresses this significant gap in the literature on transnational collective action by building on approaches that stress the multi-level characteristics of transnational relations. Edited by noted Latin American politics scholar Eduardo Silva, the contributions focus on four distinct themes to which the empirical chapters contribute: Building a Transnational Relations Approach to Multi-Level Interaction; Transnational Relations and Left Governments; North-South and South-South Linkages; and The Normalization of Labor: Bridging the Divide. This volume will add considerably to empirical knowledge of the ways in which transnational and national factors dynamically interact in Latin America. Additionally, the mid-range theorizing of the empirical chapters, along with the mix of positive and negative cases, raises new hypotheses and questions for further study.

Embracing the Tune of Expression: An Mental Symphony within **Democracy States And The Struggle For Global Justice Paperback**

In some sort of taken by displays and the ceaseless chatter of quick communication, the melodic beauty and mental symphony created by the published term usually fade in to the background, eclipsed by the relentless noise and disruptions that permeate our lives. But, situated within the pages of **Democracy States And The Struggle For Global Justice Paperback** a charming literary value full of raw emotions, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this fascinating masterpiece conducts viewers on a mental trip, well unraveling the concealed tunes and profound affect resonating within each carefully constructed phrase. Within the depths of the moving assessment, we shall examine the book is main harmonies, analyze their enthralling publishing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
