

STUDY GUIDE FOR MODULE NO. 5

RESEARCH IN CHILD AND ADOLESCENT DEVELOPMENT

MODULE OVERVIEW

You may have a separate 3-unit course on research. This module is not intended to be a substitute for that three-unit course. It is simply meant to supplement what you got or will still get in the Research course.

As you may have noticed, most if not all of what presented about the development of the child and the adolescent are products of research. It might interest you to know how these concepts/theories were arrived at. Or after having been exposed to a number of researches cited in this course, hopefully, you may be so inspired that you, too, would like to start conducting researches on your own or join group for research.

MODULE LEARNING OBJECTIVES

In this module, challenge yourself to:

- Explain the basic principles of research.
- Demonstrate appreciation of the role of teachers as consumers and producers of developmental research.
- Read researches on child and adolescent development and make simple research abstracts out of researches read.
