Cast With Style Nineteenth Century Cast Iron:

Cast With Style Tammis K. Groft,1984-01-01 Introduction to the influential cast iron stoves manufactured in Albany and Troy in the nineteenth century **Albany Institute of History & Art** Albany Institute of History and Art,1998-01-01

Beautifully illustrated introduction and overview to the collections of the Albany Institute of History and Art **Function and Fantasy: Iron Architecture in the Long Nineteenth Century** Paul Dobraszczyk,Peter Sealy,2016-07-01 The introduction of iron and later steel construction and decoration transformed architecture in the nineteenth century While the structural employment of iron has been a frequent subject of study this book re directs scholarly scrutiny on its place in the aesthetics of architecture in the long nineteenth century Together its eleven unique and original chapters chart for the first time the global reach of iron s architectural reception from the first debates on how iron could be incorporated into architecture s traditional aesthetics to the modernist cleaving of its structural and ornamental roles The book is divided into three sections Formations considers the rising tension between the desire to translate traditional architectural motifs into iron and the nascent feeling that iron buildings were themselves creating an entirely new field of aesthetic expression Exchanges charts the commercial and cultural interactions that took place between British iron foundries and clients in far flung locations such as Argentina Jamaica Nigeria and Australia Expressing colonial control as well as local agency iron buildings struck a balance between pre fabricated functionalism and a desire to convey beauty value and often exoticism through ornament Transformations looks at the place of the aesthetics of iron architecture in the late nineteenth and early twentieth centuries a period in which iron ornament sought to harmonize wide social ambitions while offering the tantalizing possibility that iron architecture as a whole could transform the fundamental meanings of ornament Taken together these chapters call for a re evaluation of modernism s supposedly rationalist interest in nineteenth century iron structures one that has potentially radical implications for the recent ornamental turn in contemporary architecture *Metals in America's Historic Buildings* ,1980 **A History of the American Locomotive** John H. White,1979-01-01 Important and beautifully illustrated volume chronicles the explosive growth of the American locomotive from British imports to grand ten wheelers of the 1870s Over 240 vintage photographs drawings and diagrams tell the exciting tale Introduction Appendices Index
