thousand miles Then read this extremely interesting informative intelligent and thoughtful book Roger S Gottlieb author of

David Brill author of As Far as the Eye Can See Reflections of an Appalachian Trail Hiker The Appalachian Trail covers 2 180
miles passing through fourteen states from Georgia to Maine Each year an estimated 2 3 million people visit the trail and
almost two thousand attempt a thru hike walking the entire distance of the path For many the journey transcends a mere
walk in the woods and becomes a modern day pilgrimage In The Spirit of the Appalachian Trail Community Environment and
Belief Susan Power Bratton addresses the spiritual dimensions of hiking the Appalachian Trail AT Hikers often comment on
how their experience as thru hikers changes them spiritually forever but this is the first study to evaluate these religious or
quasireligious claims critically Rather than ask if wilderness and outdoor recreation have benefits for the soul this volume
investigates specifically how long distance walking might enhance both body and mind Most who are familiar with the AT
sense intuitively that a trek along its length kindles spiritual awakening Using both a quantitative and qualitative approach
this book provides the hard data to support this notion Bratton bases her work on five sources an exhaustive survey of long
distance AT hikers published trail diaries and memoirs hikers own logs and postings her own personal observations from
many years on the trail and conversations with numerous members of the AT community including the trail angels residents
of small towns along the path who attend to hikers need for food shelter or medical attention The abundant photographs
reinforce the text and enable visualization of the cultural and natural context This volume is fully indexed with extensive
reference and notes sections and detailed appendixes Written in an engaging and accessible style The Spirit of the
