Lourdes Martínez de Morentín Llamas, 2013* A partir de su origen romano la

institución de la consignación sufre una evolución en su régimen jurídico que se prolonga básicamente hasta la codificación por lo que a todas luces constituye un acierto el examen realizado por la A desde su contexto histórico jurídico primigenio hasta su proyección en el ordenamiento español La consignación en derecho actual se conforma como una institución clásica del derecho civil que regulada en su redacción originaria en nuestro Código ha permanecido inalterada hasta nuestros días A pesar de su trascendencia práctica cabe afirmar como hace la A que ha sido objeto de una insuficiente atención por parte nuestra doctrina lo que contrasta con la relevancia que se le ha reconocido en otros países de nuestro entorno como es el caso del derecho francés alemán o italiano que se conforman como los sistemas de referencia en la materia conforme se deduce del análisis que de estos realiza la A que aporta atinadas observaciones que contribuyen a dar una solución a algunos de los problemas que se plantean en la regulación de la institución Una de las mayores novedades de la investigación de la A es la constituida por el estudio de la vertiente procesal de la consignación como institución encuadrada en el ámbito de la Jurisdicción Voluntaria La mencionada cuestión es abordada por la A desde la perspectiva no sólo de la actual regulación sino también de las propuestas de articulación al respecto contenidas en los proyectos prelegislativos y legislativos de la última década en materia de Jurisdicción Voluntaria

Ética política e instituciones públicas , Las relaciones entre los principios y los requerimientos de la política se sitúan en un terreno muy intrincado repleto de dificultades y conflictos inevitables Ante esta complejidad lo mínimo que se puede demandar es que política y política se muevan en la misma dimensión En el ámbito de las instituciones de carácter público la presencia de conductas o de conducta coadyuva en la tarea de reforzar la integridad de los servidores públicos al contemplar junto a la independencia e imparcialidad otros principios tan necesarios como la honradez la diligencia la transparencia los cuales se corresponden con valores que debe asumir el servidor público como propios As las normas pueden contribuir al correcto funcionamiento de las Cortes Generales y de los Parlamentos autonómicos los órganos ejecutivos el Poder Judicial o el Ministerio Fiscal e incluso de los propios partidos políticos Es incuestionable la necesidad actual de restablecer la confianza en las instituciones públicas y en los actores políticos así como de progresar en la empresa de garantizar que todos ellos lleven a cabo sus funciones de manera justa transparente y responsable La política y la política en las instituciones públicas son reas fundamentales para el buen funcionamiento de una sociedad democrática y justa En este contexto el principal propósito que ha guiado a los autores en la presente obra colectiva ha sido enfatizar y promover los principios y valores que deben guiar el comportamiento de los actores políticos y servidores públicos

La Auctoritas Romana Clemente Fernández, Ana Isabel, 2014-09-01 La búsqueda del significado originario del término auctoritas constituye el tema central y objeto del presente trabajo de investigación La noción de auctoritas se muestra como una componente emblemática y destacada de la compleja nervadura que define al pueblo romano cuya experiencia jurídica en palabras del profesor Fernández de Buján es la más paradigmática de la historia europea As en el análisis del concepto de auctoritas observaremos que es una cualidad del auctor Al tratarse de una cualidad que acompaña al ser estimamos que

participa del carácter de una persona reconociéndose con el tiempo la citada cualidad también a instituciones e incluso a cosas e ideas. Los actos efectuados por aquellos sujetos considerados autores se hallan reforzados en virtud de la cualidad de auctoritas que poseen y que obra tal efecto aumentativo o de crecimiento en razón de la posición de praeeminencia que ostentan. La posición de auctoritas despliega una faceta sociológica en la medida que en el ámbito de la comunidad la cualidad de auctoritas es apreciable y reconocida por todos resultando perceptible patente e incuestionable su existencia mimetizándose en una perfecta simbiosis social. En suma la auctoritas cuenta con una naturaleza dialéctica pues a partir de un proceso intelectual podemos llegar mediante el significado de la palabra a una realidad trascendental. **Primer diccionario**

general etimológico de la lengua española Roque Bárcia, 1902. El testamento ológrafo otorgado por personas que escriben con la boca o con el pie. Rosa Peñasco, 2018-12-13. Con El testamento ológrafo otorgado por personas que escriben con la boca o con el pie Rosa Peñasco consigue demostrar tanto en teoría como en la práctica a través del estudio de casos reales que personas que no tienen manos o no pueden utilizarlas para escribir son plenamente capaces de otorgar testamento ológrafo escribiéndolo o con la boca o con el pie. De esta forma la autora desmonta algunas teorías y corrientes jurídicas que realizando una interpretación literal y parca de la ley han llegado a la nefasta conclusión de que sólo quienes tienen manos pueden otorgar este tipo de testamento. Además de ser inconstitucional y resultar casi insultante una afirmación de tal calibre sobre todo en un país del siglo XXI en el que como es lógico no puede discriminarse a nadie por ninguna circunstancia como es la de sufrir una determinada discapacidad con un análisis histórico legislativo y hasta etimológico de algunos giros lingüísticos tipo de propia mano de mano o de puño y letra con los que se ha identificado el testamento ológrafo simplemente con nimo de incidir en que debe ser redactado por el propio testador y no por terceras personas. Rosa Peñasco consigue actualizar estos arcaicos y discriminatorios argumentos manifestando con su trabajo que muchas veces la discapacidad no reside en el cuerpo y en el cerebro y en el corazón.
