Pediatric Life Care Planning and Case Management Susan Riddick-Grisham, Laura Deming, 2004-06-22 The life care plan is a dynamic document that provides an organized plan for the current and future needs of individuals with chronic health care needs. It can serve as a roadmap for the families, caregivers, therapists, physicians, and others involved with the ongoing care of a special needs child. **Pediatric Life Care Planning and Case Management** Case Studies in Nursing Case Management Suzanne Smith Blancett, Dominick L. Flarey, 1996 Case Studies in Nursing Case Management provides portrayals of health care organizations around the nation that have successfully implemented case management programs. It reports on how case management is being used in inpatient, ambulatory, operating room, intensive care, home health, and subacute settings. Specific populations such as pediatric, maternity, dialysis, geriatric, psychiatric, and AIDS/HIV patients are also addressed. Case managers' roles in managed care and community-based settings, as well as in insurance companies, are described. *Life Care Planning and Case Management Handbook* Roger O. Weed, Debra E. Berens, 2018-09-03 Life care planning is an advanced collaborative case management specialty practice focused on assessing, evaluating, coordinating, consulting, planning for, and monitoring necessary services for individuals with complex medical care needs over their lifetime. This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management. The *Life Care Planning and Case Management Handbook* Fourth Edition begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health care-related professionals, as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan. Next, the text offers up-to-date information on the medical conditions most frequently encountered by the life care planner. The contributors, who are recognized experts in their disciplines, also address issues in forensic settings, ethics, standards, research, and credentials. The fourth edition includes numerous chapters on general issues, as well as updated standards of practice from the International Academy of Life Care Planners (IALCP). Life Care Planning Consensus Statements and valuable step-by-step charts and checklists. Completely updated and expanded, this revised handbook now includes new chapters on multicultural considerations in life care planning, admissibility of life care plans in U.S. courts, and Canadian life care planning practice. Additionally, infused in other chapters is new information on medical coding and costing for life care planners, life care planning in non-litigated contexts, as well as research and education within life care planning. *Life Care Planning and Case Management Across the Lifespan* Tanya Rutherford-Owen, Mary Barros-Bailey, Roger O. Weed, 2023-11-23 Celebrating 25 years since its first publication, the fifth edition of this best-selling text is the most up-to-date and complete resource available on what a life care planner does, how the life care planner does it, and issues that affect the day-to-day role of a life care planner. Now featuring new material on pediatric life care planning and case management, including brachial plexus injuries and neurodevelopmental disorders, this

new edition provides guidance and planning for cases across the lifespan It begins with a series of chapters examining ten different professional specializations that often contribute to a life care plan before providing critical information for developing life care plans for individuals with different physical mental and cognitive conditions including spinal cord injury brain injury and chronic pain Uniquely comprehensive the book also includes chapters on the forensic and legal context of life care planning as well as equipment technology evidence based literature resources and special education special needs planning relevant to pediatric life care planning Also including chapters dedicated to life care planning methodology and life care planning research this is an essential resource for anyone practicing or studying life care planning or managing the needs of those requiring chronic medical care over the lifespan **Pediatric Life Care Planning and Case Management**

Susan Riddick-Grisham,Laura Deming,2011-04-26 Pediatric Life Care Planning and Case Management provides a comprehensive and unique reference that goes beyond the clinical discussion to include legal and financial aspects life expectancy data and assistive technology It also includes case samples of actual plans related to specific conditions The book is divided into five parts Normal Grow **The Leader's Guide to Hospital Case Management** Stefani Daniels,Marianne Ramey,2005 This text will address the role of the hospital case manager from a business perspective rather than a nursing perspective Will engage all areas that are involved with the health care system in pursuit of global objectives on behalf of every stakeholder *The Integrated Case Management Manual* Roger G. Doody's Core Title An ideal reference guide for case managers who work with complex multimorbid patients The Integrated Case Management Manual helps readers enhance their ability to work with these patients learn how to apply new evidence based assessments and advocate for improved quality and safe care for all patients This text encourages case managers to assess patients with both medical and mental health barriers to improvement in order to coordinate appropriate integrated health interventions and treatment planning Built upon the goals and values of the Case Management Society of America CMSA this manual guides case managers through the process of developing new and important cross disciplinary skills These skills will allow them to alter the health trajectory of some of the neediest patients in the health care system Key Features Tools and resources for deploying an Integrated Health Model physical and mental health treatment to the medically complex patient Complexity assessment grids a color coded tool for tracking patient progress and outcomes throughout the trajectory of the illness Methods for building collaborative partnerships in emerging models of care delivery within multidisciplinary health care teams Strategies for using an integrated case management approach to improve efficiency effectiveness accountability and positive outcomes in clinical settings Guidance on connecting multi disciplinary teams to assist with health issues in the biological psychological and social domains to overcome treatment resistance reduce complications and reduce cost of care Nursing Case Management Elaine Cohen,Toni G. Cesta,2004-08-26 This classic resource offers complete coverage of nursing case management from theoretical background and historical perspective to practical applications and

how the field is changing to meet the challenges of today's health care environment. It focuses on the implementation of various case management models used throughout the United States and abroad. Key topics include the impact of public policy on health care, understanding the effects of health care reimbursement and its application at the patient level, throughput and capacity management, the impact of the revenue cycle, compliance and regulatory issues, and principles needed to improve case manager/client interaction. This helpful resource is designed to help nurse case managers assess their organization's readiness for case management, prepare and implement a plan to achieve necessary improvements, and evaluate the plan's success. Includes numerous proven case management models currently being used in institutions across the country. Organized to take the nursing case manager on a journey from the historical development of nursing case management to the successful implementation of a case management program. Offers detailed guidance for planning, implementing, and evaluating a case management program. Outlines the planning process with information on key topics such as analysis of the organization, the role of the organization's members, selection criteria for new case managers, case management education, credentialing, and partnerships. Features guidelines for implementing a case management program with information on ethical issues, technology, compliance, and regulatory issues. Addresses the evaluation component of developing and implementing a case management program by presenting information on outcomes, research, documentation, continuous quality improvement, measuring cost effectiveness, care continuum, and evidence-based practice. Presents acute care and community-based models of case management. Highlights the evolution of collaborative models of case management, addressing key elements of joint decision making, shared accountability, and interdisciplinary systems of care. Addresses health care delivery through case management and public policy by presenting current legislative issues and their affect on both health care reimbursement and the application of care at the patient level. Presents the insights, experiences, and advice of nursing administrators who have researched and successfully implemented nursing case management programs in various facilities.

Case Management Suzanne K. Powell, 2000. The Second Edition of this comprehensive how-to text has been completely revised and updated. This text outlines the basics of case management and illustrates some of the pitfalls encountered in the field of case management. The book provides information on the new Case Management Standards, supplies standard definitions and guidelines of case management for the practicing case manager, and presents information on caring for clients in a wide variety of health care settings. New to this edition: chapters focusing on Quality Reviews and Risk Management with a strong emphasis on Continuous Quality Improvement (CQI), ethical and legal issues, and various case studies.

Implementing Cancer Survivorship Care Planning The National Cancer Institute, The Lance Armstrong Foundation, Institute of Medicine, 2007-01-14. One of the key recommendations of the joint IOM and NRC book *From Cancer Patient to Cancer Survivor: Lost in Transition* is that patients completing their primary treatment for cancer be given a summary of their treatment and a comprehensive plan for follow-up. This book answers practical questions about how this
