**Elsevier's Dictionary of Plant Names and Their Origin** ,2000-07-19 The dictionary contains about 30 000 vernacular and literary English names of plants plus a few American both wild and cultivated with their botanical name and a brief account of the names meaning if known It was conceived as part of the author s wider interest in plant and tree lore and ethnobotanical studies Knowledge of plant names can give insight into largely forgotten beliefs Why for example is or was the common red poppy known as Blind Man An old superstition has it that if the poppy were put to the eyes it would cause blindness Such names were probably the result of some taboo against picking the plant Similarly other names were likely to have been applied as a result of a country mother s warning to her children against eating poisonous berries For the warning carries more weight when the name given to the berry reinforces the warning Many such plants or fruits may be ascribed to the devil Devil s Berries for Deadly Nightshade is an example Names may also be purely descriptive and can also serve to explain the meaning of the botanical name Beauty Berry is an example it is the name given to the American shrub that belongs to the genus *Callicarpa* which is made up of two Greek words that mean beauty and berry Literary or book names have also been included in this dictionary as being a very important part of the whole Many of them provide links in the transmission of words through the ages Thor s Beard for example is a book name for houseleek and has never been used in the dialect But it highlights the legend that houseleek is a lightning plant and by reverse logic is a preserver from fire

**A Christian's Treasury of Trees & Plants** Hilary Giner-Sorolla,2011-07 Whether you believe in them or not the legends surrounding tress and plants contain powerful images which appeal to us because of their humanity and sheer simplicity God employed a burning bush as a medium of revelation when He spoke to Moses and every tree or plant on this planet is afire with His presence for example in the plant realm the cornflower has ultraviolet pigments in its blue petals which are invisible to the human eye but irresistible to a pollinating bee In the realm of trees the seed of the maple is equipped with a neat pair of wings which enables it to sail away from the parent on a current of air Jesus used trees and plants as metaphors and early monks and missionaries took up the torch relabeling a number of trees and plants with holy names as an educational tool In this book I have sought to rescue some of these legends from obscurity concentrating on those within the Judeo Christian tradition in a few instances I have taken the liberty of linking biblical references to botanical names It is my hope that this collection with its beautiful photographs and simple text will reach a wide readership to inform inspire and entertain
