

## **Extended Essay Introduction**

### **GROUP 4: Sciences - Chemistry**

**Students who choose Chemistry for their Extended Essay:**

- Enjoy Chemistry – both the scientific and technical issues
- Can identify an issue that can be investigated – and argued.

**The Chemistry Extended Essay:**

- Must be approximately 4000 words in length.
- The investigation must allow for critical analysis of material on a debatable question. This is not simply a summarization of sources on the topic.
- The investigation is also NOT an extended IRP – it must provide more analysis, so the topics need to be more questions.
- Can be an experiment- or research-based EE.

#### **EXPERIMENT BASED EXAMPLES:**

- Do different varieties of seaweed contain significantly different amounts of iodine?
- To what extent can the reaction between an iron nail and an apple be used to provide the recommended daily allowance of iron?
- Can mosquito repellants be extracted from the Papua New Guinea plant genus *Ocimum*?

#### **RESEARCH BASED EXAMPLES:**

- What is the feasibility of using graphene to filter seawater into drinking water?
- A comparison between two theories of olfaction on the molecular level.
- A comparison of the effectiveness of xanthene gum and naturally occurring lipids as food thickeners.
