Coherent Madness Effective Defense Against Covert Warfare:

Coherent Madness: Effective Defense Against Covert Warfare Mukazo Mukazo Vunda, 2008-09-24 Virtually banned in the west Reserved for posthumous critique Buy it while I am still alive Covert warfare to eliminate threats or research electronic chemical and biological agents on unwitting hapless civilians is becoming more widespread than ever before A tax money supported network of dedicated criminals for whom waging covert warfare is a way of life is on the increase their job to punish by torture and eliminate people who pose a threat to those in positions of power Intelligence agencies there to protect citizens from internal and external foes the judiciary as well as the police forces are heavily involved giving the nod protection the best of their know how and technology to the activity and those involved Hideout In the Apocalypse John Stapleton, 2016-11-10 Hideout in the Apocalypse is about surveillance and the crushing of Australia's larrikin culture In the last three years the Australian government has prosecuted the greatest assault on freedom of speech in the nation's history The government knew from international research that when it introduced the panopticon universal surveillance into Australia it would have a devastating impact on the culture When people know they are being watched they behave differently Dissent is stifled conformity becomes the norm This is the so called chilling effect Hideout in the Apocalypse in the great tradition of The Lucky Country takes Australia's temperature half a century on from Donald Horne's classic cautionary tale Now the future has arrived Forced by a plethora of new laws targeting journalists to use novelistic techniques in his latest book veteran news reporter John Stapleton confirms the old adage truth is stranger than fiction Hideout in the Apocalypse takes up the adventures of retired news reporter Old Alex first encountered in the book's predecessor Terror in Australia Workers Paradise Lost But as befits the times this book is more fantastical intimate and politically acerbic in its portrait of his beloved country Alex believes he has been under abusive levels of government surveillance since writing a book called Terror in Australia and as a natural empath can hear the thoughts of the surveillance teams on his track the so called Watchers on the Watch Alex also believes he is a cluster soul sent with others of his kind to help save the Earth from an impending apocalypse and has the capacity to channel some of history's greatest writers Australia might have the worst anti freedom of speech laws in the Western world but how can you sue a character like that Stapleton's essential theme a place which should have been safe from an impending apocalypse the quagmire of religious wars enveloping the Middle East is not safe at all Ideas are contagious and the Australian government is afraid of them Australia is a democracy in name only The war on terror has become a war on the people's right to know justifying a massive expansion of state power Alex's swirling head lifelong fascination with sociology literature and journalism and his deep distress over the fate of the Great Southern Land makes him the perfect character to tell a story which urgently needs to be told **Paramilitary Covert Operations** R. J. Godlewski, 2019-01-06 Covert secret soldiers remain any government's most effective and lethal tool to impart its influence upon others whether large standing armies or regional criminal enterprises Nevertheless they are

often misused as personal armies or not employed within the strictest covert capacity diluting their ability to perform where their talents best suggest As the world migrates away from its relative fascination with taxpayer funded conveniences towards a more traditional approach to social justice the political Left and Right will drift further apart leaving mainstream populations caught within a battle of ideologies These micro wars will test the ability of conventional police and military forces offering a pretext for further paramilitary operations undertaken both by governments and private entities
