Issues in Repatriating Nigeria's Looted Artefacts Babatunde Adebisi,2012-09-24 The book Legal and other Issues in Repatriating Nigeria s Looted Artefacts enumerates the various means of repatriating Nigeria s illicitly exported artefacts The book hopes to ignite the interest of all in how to use the acclaim of Nigeria s splendid cultural patrimony to kick start a

momentum that will instil patriotism in Nigerians The book reveals that the available laws to aid repatriation are skewed in favour of the nations in possession thus making it an onerous task to repatriate these stolen artefacts However the book expresses the hope that some arrangement can be reached by all concerned that will at least make Nigeria and other source nations have some proprietary rights over their cultural property The author Babatunde E Adebisi is Legal Adviser to Nigeria's National Commission for Museums and Monuments He has written extensively on laws relating to cultural issues His other works include *Tourism Development in Nigeria Another Approach* and *Branding Culture* **An Internet for the People**

Jessa Lingel, 2022-06-14 How craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e mail to some friends about cool events happening around San Francisco craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn't profit off your data *An Internet for the People* explores how people use craigslist to buy and sell find work and find love and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site's history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist's legal history describing the company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet *Chemistry and Numbers* Steve Monas, 2006-11-22 *Chemistry and Numbers* is the definitive guide to Online Dating and Relationship sites This book reviews some of the most popular and successful online dating sites helping you make an informed decision A step by step fully illustrated guide on signing up to making the first impression *Your True Love Is Just A Click Away* You are living in California and your soulmate lives in Nebraska Do you believe that you'll meet them at the corner bar The dating scene is changing every day and online dating websites have opened up singles to a whole new world of dating opportunities Never before has true love been found from around the corner to half a world away As you are reading this millions of eligible men and women are online looking for their Mr or Mrs Right but with so many online dating sites and choices it can be very hard to find the right one for you Some of the 20 sites that are reviewed and shown with Step by Step Picture Instructions include Match eHarmony True Chemistry American Singles Lava Life Craigslist and more *Why Did You Create An Online Dating Profile* I created an online dating profile to meet new people and to jump start my dating life I moved to a new city after college and prior to posting online I struggled to find men that I was interested in dating As is the case for many young professionals there's scant opportunity to meet the right person unless you have a vast social network so my profile was meant to expand my search wider and include
